In all Ports, except those enumerated above, having Local Boards, the duty of the Shipping Master is performed by the Collector of Customs.

NOTICE OF EXAMINATIONS

OF

MASTERS AND MATES OF "FOREIGN-GOING SHIPS,"

AND OF

"HOME TRADE PASSENGER SHIPS,"

Established in pursuance of the Merchant Shipping Act, 1854,

AND OF

VOLUNTARY EXAMINATIONS IN STEAM.

1. UNDER the provisions of the Merchant Shipping Act, 1854, no "Foreign-going Ship" * or "Home Trade Passenger Ship" * can obtain a clearance or transire, or legally proceed to sea, from any port in the United Kingdom unless the Master thereof, and in the case of a Foreign-going Ship the First and Second Mates or Only Mate (as the case may be), and in the case of a "Home Trade Passenger Ship" the First or Only Mate (as the case may be), have obtained and possess valid Certificates, either of Competency or Service, appropriate to their several stations in such ship, or of a higher grade; and no such ship, if of *one hundred tons burden or upwards*, can legally proceed to sea unless at *least one officer besides the Master* has obtained and possesses a valid Certificate, appropriate to the grade of Only Mate therein, or to a higher grade; and every person who, having been engaged to serve as Master or as First, or Second, or Only Mate of any "Foreign-going Ship," or as Master or First or Only Mate of a "Home Trade Passenger Ship," goes to sea as such Master or Mate without being at the time entitled to and possessed of such a Certificate as the Act requires, or who employs any person as Master or First, Second, or Only Mate of any "Foreign-going Ship," or as Master or First or Only Mate of any "Home Trade Passenger Ship," without ascertaining that he is at the time entitled to and possessed of such Certificate, *for each offence incurs a penalty not exceeding fifty pounds.*

2. Every Certificate of Competency for a "Foreign-going Ship" is to be deemed to be of a higher grade than the corresponding Certificate for a "Home Trade Passenger Ship," and entitles the lawful holder to go to sea in the corresponding grade in such last-mentioned Ship;

* By a "Foreign-going Ship" is meant one which is bound to some place out of the United Kingdom, beyond the limits included between the river Elbe and Brest; and by a "Home Trade Passenger Ship" is meant any Home Trade Ship employed in carrying passengers; and it is to be observed that *Foreign Steam Ships when employed in carrying passengers between Places in the United Kingdom* are subject to all the Provisions of the Act, as regards certificates of Masters and Mates, to which British Steam Ships are subject (s. 291).

but, *no Certificate for a "Home Trade Passenger Ship" entitles the holder to go to sea as Master or Mate of a "Foreign-going Ship."*

3. A Certificate of Service entitles an Officer, who had already served as either Master or Mate in a British Foreign-going Ship before the 1st of January, 1851, or as Master or Mate in a Home Trade Passenger Ship before the 1st of January, 1854, to serve in those capacities again; and it also entitles an Officer who has attained or attains the rank of Lieutenant, Master, Passed Mate, or Second Master, or any higher rank in the service of Her Majesty or of the East India Company, to serve as Master of a British Merchant Ship, and may be had by application to the Registrar-General of Seamen, Adelaide Place, London Bridge, or to any Shipping Master in the Outports, on the transmission and verification of the necessary certificates and testimonials.

4. *Certificates of Competency* will be granted to those persons who pass the requisite examinations, and otherwise comply with the requisite conditions. For this purpose Examiners have been appointed under the Local Marine Boards, and arrangements have been made for holding the examinations at the several ports upon the days specified against them; and these days are so arranged for general convenience, that a candidate wishing to proceed to sea, and missing the day at his own port, may proceed to another port where an examination is coming forward. The days for commencing the examinations at the various ports are set forth in pages 8 to 11 of this work.

5. Applicants for examination must give their names to the Shipping Master, or to the Local Marine Board at the place where they intend to be examined, on or before the day of examination, and must conform to any regulations in this respect which may be laid down by the Local Marine Board; and if this be not done, delay may be occasioned.

6. Testimonials of character and of sobriety, experience, ability, and good conduct on board ship, will be required of all applicants, and without producing them no person will be examined. As such testimonials may have to be forwarded to the office of the Registrar-General of Seamen

in London for verification before any certificates can be granted, it is desirable that candidates should lodge them as early as possible. Testimonials of servitude on board Foreign Vessels before being received by the Examiners, are to be confirmed either by the endorsement of the Consul of the Country to which the ship belongs, or by some other recognised official authority of that Country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. Upon application to the Shipping Master candidates will be supplied with a form, which they will be required to fill up and lodge with their testimonials in the hands of the Examiners.

7. The examinations will commence early in the forenoon on the days before mentioned, and be continued from day to day until all the candidates whose names appear upon the Shipping Master's list on the day of examination are examined.

8. The qualifications required for the several ranks under-mentioned, are as follow :—

A SECOND MATE must be seventeen years of age, and must have been four years at sea.

IN NAVIGATION.—He must write a legible hand, and understand the first five rules of arithmetic and the use of logarithms. He must be able to correct the courses steered for variation and lee-way, and find the difference of latitude and longitude therefrom ; be able to correct the sun's declination for longitude, and find his latitude by meridian altitude of the sun ; and work such other easy problems of a like nature, as may be put to him. He must understand the use of the sextant, and be able to observe with it, and read off the arc.

IN SEAMANSHIP.—He must give satisfactory answers as to the rigging and unrigging of ships, stowing of holds, &c. ; must understand the measurement of the log-line, glass, and lead-line ; be conversant with the rule of the road, as regards both steamers and sailing vessels, and the lights carried by them.

AN ONLY MATE must be nineteen years of age, and have been five years at sea.

IN NAVIGATION.—In addition to the qualification required for a Second Mate, an Only Mate must be able to work a day's work complete, including the bearings and distance of the port he is bound to, by Mercator's method. He must be able to observe and calculate the amplitude of the sun, and deduce the variation of the compass therefrom, and be able to find the longitude by chronometers by the usual methods. He must know how to lay off the place of the ship on the chart, both by bearings of known objects, and by latitude and longitude. He must be able to use a sextant and determine its error, and adjust it, and find the time of high water from the known time at full and change.

IN SEAMANSHIP.—In addition to what is required by a Second Mate, he must know how to moor and unmoor, and to keep a clear anchor ; to carry out an anchor ; to stow a hold, and make the requisite entries in the ship's log.

A FIRST MATE must be nineteen years of age, and have served five years at sea, of which one year must have been as either Second or Only Mate, or as both.*

IN NAVIGATION.—In addition to the qualification required for an Only Mate, he must be able to observe azimuths and compute the variation ; to compare chronometers and keep their rates, and find the longitude by

them from an observation by the sun ; to work the latitude by single altitude of the sun off the meridian ; and be able to use and adjust the sextant by the sun.

IN SEAMANSHIP.—In addition to the qualification necessary for an Only Mate, a more extensive knowledge of seamanship will be required, as to shifting large spars and sails, managing a ship in stormy weather, taking in and making sail, shifting yards and masts, &c., and getting cargo in and out ; getting heavy spars and weights, anchors, &c., in and out ; casting ship on a lee-shore ; and to secure the masts in the event of accident to the bowsprit.

A MASTER must be twenty-one years of age, and have been six years at sea, of which one year must have been as First or Only Mate, and one year as Second Mate ; or two years as First and Only Mate.*

In addition to the qualification for a First Mate, he must be able to find the latitude by a star, &c. He will be asked questions as to the nature of the attraction of the ship's iron upon the compass, and as to the method of determining it. He will be examined in so much of the Laws of the Tides as is necessary to enable him to shape a course, and to compare their soundings with the depths marked on the charts. He must possess a sufficient knowledge of what he is required to do by law ; as to entry and discharge, and the management of his crew ; as to penalties and entries to be made in the official log. He will be questioned as to his knowledge of invoices, charterparty, Lloyd's agent, and as to the nature of bottomry ; and he must be acquainted with the leading lights of the channel he has been accustomed to navigate, or which he is going to use.

In cases where an applicant for a certificate as Master Ordinary has only served in a fore and aft rigged vessel, and is ignorant of the management of a square rigged vessel, he may obtain a certificate on which the words "*fore and aft rigged vessel*" will be written. This is not, however, to apply to Mates, who, being younger men, are expected for the future to learn their business completely.

AN EXTRA MASTER'S EXAMINATION is intended for such persons as wish to prove their superior qualifications.

IN NAVIGATION.—As the vessels which such Masters will command frequently make long voyages, to the East Indies, and the Pacific, &c., the candidates will be required to work a lunar observation by both sun and star, to determine the latitude by the moon and star, by Polar star off the meridian, and also by double altitude of the sun, and to verify the result by Sumner's method. He must be able to calculate the altitudes of the sun or star when they cannot be observed, for the purposes of lunars, also to find the error of a watch by the method of equal altitudes, to correct the altitudes observed with an artificial horizon.

He must understand how to observe and apply the deviation of the compass ; and to deduce the set and rate of the current from the D.R. and observation. He will be required to explain the nature of great circle sailing, and know how to apply practically that knowledge, but he will not be required to go into the calculations. He must be acquainted with the law of storms, so far as to know how he may probably best escape those tempests common to the East and West Indies, and known as hurricanes.

IN SEAMANSHIP.—The extra Examination will consist

* Service in a superior capacity is in all cases to be equivalent to service in an inferior capacity.

of an inquiry into the competency of the party to heave a ship down, in case of accident befalling her abroad; of getting lower masts and other heavy weights in and out; how to construct rafts, and as to his resources for the preservation of the ship's crew in the event of wreck; and in such operations of a like nature as the Examiner may consider necessary.

General Rules as to Examinations and Fees.

9. The candidates will be allowed to work out the various problems according to the method and the tables they have been accustomed to use, and will be allowed five hours to perform the work; at the expiration of which, if they have not finished, they will be declared to have failed, unless the Local Marine Board see fit to extend the time.

Fees to be paid by Applicants for Examination.

10. The fee for examination must be paid to the Shipping Master. If a candidate fail in his examination, half the fee he has paid will be returned to him by the Shipping Master on his producing a document which will be given him by the Examiner. The fees are as follow:—

FOR "FOREIGN-GOING SHIPS."			
	£	s.	d.
Second Mate	1	0	0
First and Only Mate, if previously possessing an inferior Certificate .	0	10	0
If not	1	0	0
Master, whether Extra or Ordinary Master, if previously in possession of a Certificate "For fore and aft rigged vessels"	2	0	0
	1	0	0
FOR "HOME TRADE PASSENGER SHIPS."			
	£	s.	d.
Mate	0	10	0
Master	1	0	0

11. Any one who is in possession of a Master's first-class Certificate granted by one of the former Boards of Examiners, or of an Ordinary Master's Certificate of competency granted under the present Examiners, may pass an extra Examination, and receive an extra Certificate in exchange for his former one, without payment of any fee; but if he fails in his first Examination, he must pay half a Master's fee on his coming a second time; and the same sum for every subsequent attempt.

12. If the applicant passes he will receive a document from the Examiner, which will entitle him to receive his Certificate of Competency from the Shipping Master at the port to which he has directed it to be forwarded.

If his testimonials have been sent to the Registrar-General to be verified, they will be returned with his Certificate.

13. If an applicant is examined for a higher rank and fails, but passes an Examination of a lower grade, he may receive a Certificate accordingly, but no part of the fee will be returned.

14. In all cases of failure the candidate must be re-examined *de novo*, and in case of failure in *Seaman-ship* a candidate will not be examined until after a lapse of six months, to give him time to gain experience.

15. As the Examinations of Masters and Mates are made compulsory, the qualifications have been kept as low as possible; but it must be distinctly understood that it is the intention of the Board of Trade to raise the standard from time to time, whenever, as will no doubt be the case, the general attainments of officers in the Merchant Service shall render it possible to do so without inconvenience; and Officers are strongly urged to employ their leisure hours, when in port, in the acquirement of the knowledge necessary to enable them to pass their examinations; and Masters will do well to permit Apprentices and junior Officers to attend schools of instruction, and to afford them as much time for this purpose as possible.

QUALIFICATIONS FOR CERTIFICATES OF COMPETENCY FOR
"HOME TRADE PASSENGER SHIPS."

A MATE must write a legible hand, and understand the first four rules of arithmetic. He must know and understand the rule of the road, and describe and show that he understands the Admiralty regulations as to lights. He must be able to take a bearing by compass, and prick off the ship's course on a chart. He must know the marks in the lead-line, and be able to work and heave the log.

A MASTER must have served one year as a Mate or be in possession of a Pilot's Licence of the first class. In addition to the qualifications required for a Mate, he must show that he is capable of navigating a ship along any coast, for which purpose he will be required to draw upon a chart produced by the Examiner the courses and distances he would run along shore from headland to headland, and to give in writing the courses and distances corrected for variation, and the bearings of the headlands and lights, and when the courses should be altered, either to clear any dangers or to adapt it to the coast. He must understand how to make his soundings according to the state of the tide.

EXAMINATIONS IN STEAM.

16. Arrangements have been made for giving to those Masters, and First or Only Mates (or applicants for Certificates as such) who desire to do so, an opportunity of undergoing an examination as to their practical knowledge of the use and working of the steam engine.

17. These examinations are conducted in connection with the other examinations in the premises and under the superintendence of the Local Marine Boards, at such times as they may appoint for the purpose; and the Examiners are selected by the Board of Trade, from the engineer surveyors appointed under the fourth part of the Merchant Shipping Act, 1854.

18. Any such person desiring to be so examined must hand in to the Shipping Master a statement in writing to that effect on a Schedule EE. If he is already possessed of the requisite Certificate of Competency, he must deliver this statement with his certificate to the Shipping Master, at such time as the Local Marine Board may appoint for the purpose.

19. He must also, at the same time, pay a fee of one pound; but if he fails, no part of the fee he has paid will be returned.

The examination is *visd voce*. It extends to a general knowledge of the practical use and working of the steam engine; and the applicant must show that he has a sufficient knowledge of the ordinary parts of the machinery to enable him to judge of the nature of an accident, and, in the absence of the engineer, to give the necessary directions in the engine room.

QUESTIONS

TO BE ANSWERED BY APPLICANTS UNDER EXAMINATION
IN THE PRACTICAL USE OF THE STEAM ENGINE.

Explain the nature and use of the principal valves and cocks connected with the boilers and engines, commencing with the boilers.

Boiler Valves and Cocks.

1. Safety valves.
2. Reverse or atmospheric valves.
3. Communication or stop valves.
4. Feed valves.
5. Kingston valves.
6. Blow-off cocks.
7. Communication cocks.
8. The water gauge cocks.
9. The glass water gauge.
10. Steam gauge.
11. Hand-pump for boilers.

Engine Valves and Cocks.

1. Throttle valves.
2. The slide valves.
3. The expansion valves.
4. The escape valves on top and bottom of cylinder.
5. The blow-through valves.
6. The foot valve.
7. The delivering valve.
8. The air-pump bucket valves.

9. The injection valves and cocks.
10. Bilge-pump valves and cocks.
11. Stop or sluice valves to discharge pipes.
12. Jacket cocks.
13. The sniffing valves.

Boilers.

1. If the safety valves were set fast, how would you relieve the pressure on the boilers, if steam was up and could not make its escape?
2. How do you ascertain the saltness of the water in the boiler?
3. How would you manage to change the water in the boiler, if the blow-off cocks were set fast?
4. On examining the boilers, and they are found to be thin, what measures would you adopt to prevent accidents?
5. How would you keep the boilers free from salt and incrustation?
6. Is it requisite to have a hand-pump fitted to the boilers? if so, for what purpose?
7. Explain the use of the gauge-glasses and gauge-cocks, fitted on the boilers.
8. If the mercury was blown out of the steam-gauge by the pressure of steam in the boilers, what would you apprehend was the cause?
9. What would you do to relieve the pressure of the boilers?
10. How would you regulate the height or quantity of water in the boilers?
11. When the steam is up, how is the feed applied to the boilers?
12. When it is not up, what is necessary to be done before the fires are lighted?
13. When the engines are stopped, what precautions are necessary with regard to the water in the boiler?
14. What is meant by a boiler priming?
15. How would you prevent it doing so?
16. If the water in a boiler is suffered to get too low, what may be the consequences?
17. What height should the water stand in a common boiler above the flues?
18. What height should the water stand in a tubular boiler above the tubes?
19. If any of the tubes were damaged by the fire, or leaky, what would you do, supposing you could not shift them?
20. How do you detect the pressure of steam in a boiler?
21. If the water in a boiler is suffered to get too high, what might be the consequences?
22. How would you know when the water in the boiler requires changing?
23. Explain the use of the thermometer and hydrometer.

Engines.

24. Explain the use of the cylinders.
25. Explain the use of the air pump.
26. Explain the use of the condenser.
27. Explain the use of the eduction pipe.

28. Explain the use of the hot-water cistern.
29. Explain the use of the piston, and how fitted.
30. Explain the use of the stuffing-box and glands.
31. Explain the use of the parallel-motion rods.
32. Explain the use of the excentric, and how fitted.
33. Explain the use of the starting-lever.
34. Explain the use of the barometer.
35. Explain the use of the steam-gauge.
36. The vessel is alongside the wharf, proceed to get the steam up.
37. When the steam is up, how is it applied to the engine to set it in motion?
38. What precaution is necessary before the engine is set in motion?
39. How do you start the engine?
40. Is it necessary to move the engines by hand a turn or two before starting?
41. The engines being started, regulate the injection-cocks, so as to keep them going at full or reduced speed.
42. What is the use of the injection?
43. How is the vacuum maintained in a condensing engine?
44. How do you know when there is too much injection?
45. How do you know when there is not enough injection?
46. If the injection was not shut off when the engines are stopped, what would happen?
47. If the condenser reject the injection, what would you do?
48. Would it be advantageous if an injection-pipe was fitted so as to take injection from the bilge, if required.
49. If water should get into the cylinder, what might be the consequence?
50. In running free with a heavy sea and a jump upon the engines, what precautions would you take to endeavour to prevent damage to the engines?
51. If one engine be damaged, what would you do in order to proceed?
52. If the excentric should break, could the engines still be worked?
53. If a bearing becomes heated, what would you do?
54. How would you slow an engine?
55. How would you stop an engine?
56. Wherein does a high-pressure differ from a low-pressure engine?
57. How do you admit tallow into the cylinders, when the engines are at work, for the purpose of lubricating the pistons?
58. What is meant by working the engines expansively?
59. How would you disconnect the engines if there was no disconnecting gear fitted?
60. What is meant by throwing the engines out of gear?
61. Why have two feed-pumps fitted, say one to each engine?
62. Is it requisite to have branch pipes fitted to the feed-pumps? if so, for what purpose?

MASTERS AND MATES

WHO HAVE PASSED THEIR EXAMINATION AND OBTAINED CERTIFICATES OF COMPETENCY.

The figures 1 ex., 1, 2, 3, denote First Extra, First, Second, and Third Class Master's Certificates, granted under the Voluntary Examination, by Order in Council, dated August, 1845.

Ex C—Master Extra. O C—Master Ordinary. 1 M—First Mate. O M—Only Mate.
2 M—Second Mate. L. R. N.—Lieut. Royal Navy. M. R. N.—Master Royal Navy.
E. I. O.—East India Company. M. I. N.—Master Indian Navy.

- * Before the name denotes those who are found qualified to act in Fore and Aft-rigged Vessels only.
- † In North Whale Fishery only.
- ‡ Passed the Examination in Steam.
- † Refers to the Honorary Testimonials.

A B C D are the distinguishing letters for the four classes of Meteorological Observers. See Official Notices.

NOTE.—A person possessing a Master's Certificate, whether of competency or service, is eligible to command any vessel of whatsoever tonnage, and either certificate is sufficient for clearance at the Custom House, unless the conditions of the Charterparty of vessels taken up by Government for the conveyance of troops, stores, or emigrants, and also the Regulations of the principal Steam Packet Companies, require that the Master and principal officers shall possess Certificates of competency.

The First Mate may engage as Mate of any kind.

The only Mate as Mate when there is no other; or as Second Mate when there is a First Mate.

The Second Mate is not appropriate for any superior station, and must be employed only in cases where a First Mate is also engaged.

A Certificate of Competency for a Foreign-going ship is equivalent to a Certificate of equal or lower grade for a Home-trade Passenger Ship, and entitles the holder to fill the situation of Master or Mate, as the case may be.

Certificates of Competency or Service may be either of a grade appropriate to the Stations held for the time being, or of any superior grade.

LIST OF CANCELLED CERTIFICATES OF COMPETENCY.

Any person who forges or alters a Certificate, or fraudulently makes use of any Certificate to which he is not justly entitled, is liable either to be prosecuted for a Misdemeanor, or to be summarily punished before a magistrate by a penalty of £100, or by imprisonment with hard labour for six months; and any person who refuses to deliver up a Certificate which has been cancelled or suspended, is liable to the same summary punishment.

NOTE 1.—Section 224 of the "Merchant Shipping Act, 1854," contains the following provisions, viz.:—"The following rules shall be observed with respect to medicines, medical stores, and anti-scorbutics; that is to say: (1.) The Board of Trade shall from time to time issue and cause to be published a scale of medicines and medical stores suitable to accidents and diseases arising on sea voyages. (2.) The owner of every ship navigating between the United Kingdom and any place out of the same, shall provide, and cause to be constantly kept on board such ship, a supply of such medicines and medical stores in accordance with the said scale. And if, in any such ship as aforesaid, such medicines, medical stores, lime or lemon juice, or other articles, sugar and vinegar, as are hereinbefore required, are not provided and kept on board, as hereinbefore required, the Master or Owner shall incur a penalty not exceeding twenty pounds; and if the Master of any such ship, as aforesaid, neglects to serve out the lime or lemon juice, or other articles, sugar or vinegar, in the case and manner hereinbefore

directed, he shall for each such offence incur a penalty not exceeding five pounds; and if any Master is convicted in either of the last-mentioned penalties, and it appears that the offence is owing to the act or default of the Owner, such Master may recover the amount of such penalty, and the costs incurred by him, from the Owner.

NOTE 2.—In ships employed trading solely between places in Europe, or between places on the shores of the North Atlantic or Mediterranean, and in ships employed in the Greenland or Baffin's Bay trade, or in any of the Northern Fisheries, the proportion of the various articles above mentioned need not exceed the proportions mentioned in the second of the above columns, notwithstanding that the number of men and boys may exceed 20.

NOTE 3.—Passenger ships which are certified under the 44th section of the "Passengers Act, 1855," to be duly supplied with medicines, need not be also provided with medicines or other articles according to the above scale.

HONORARY TESTIMONIALS.

Certificate

- 53.—The passengers of the "*Harbinger*," on her outward-bound voyage to Australia, in 1853, presented him with a valuable service of plate, and those persons who returned to England by the same vessel presented him with a gold snuff-box, in appreciation of his valuable services as the commander.
- 54.—In December, 1854, when in command of the Peninsular and Oriental Steam Navigation Company's vessel "*Shanghai*," Captain Munro rescued the crew of the American ship "*Living Age*," who were cast away on an uninhabited island in the China Seas, for which services he received a gold chronometer and chain from the President of the United States.
- 416.—Received a medal from the Hon. East India Company, for his exertions in the battles of Meeanee and Hyderabad, whilst in command of the Company's steam-vessel "*Nimrod*," in 1843.
- 471.—A silver snuff-box was presented to him by the passengers of the barque, "*Thetis*," in October, 1845, "as a token of their regard and remembrance of his kind attention during the voyage to Calcutta."
- 498.—On landing the foreign emigrants at New York, from the "*Katherine Stewart Forbes*," in 1847, they presented to him a piece of plate, "as a token of their respect and esteem, and for his attention to them during the voyage from Antwerp."
- 525.—The insurance offices and underwriters interested in the ship "*Adelaide*," which was saved from destruction on her voyage from South Australia to London, in 1853, after compensating the crew for their services, presented Captain Tremearne with £1,000, and a silver tea-service for his unceasing attention.
- 549.—On arrival of the "*Constance*" at Adelaide, in November, 1849, after a passage of 77 days from Plymouth, Captain Godfrey was complimented by an invitation to a public dinner, and received the grateful thanks of his passengers for the ability and gentlemanly conduct displayed during the voyage. On arrival of the "*Statesman*," in September, 1852, from England in 83 days, the passengers presented him with 40 guineas, for the purchase of any article in accordance with his taste.
- 645.—On the wreck of the "*Superb*," off the Minquiers, on 24th September, 1850, by his exertions he saved the lives of 30 persons. Several gentlemen who

Certificate

- witnessed the promptitude displayed, presented him with a handsome silver cup.
- 871.—A silver salver and gold watch were presented to him in June, 1850, by the passengers from England to New Zealand, in the "*Poitiers*."
- 835.—On arrival of the "*Bussorah Merchant*," at Port Adelaide, in December, 1848, the emigrants presented a gold watch and chain to Captain Edwards, as a mark of their gratitude for his attention during the voyage; and in October, 1849, a similar compliment was paid to him by the emigrants on their landing at Port Philip, when he received a large silver cup, knife, fork, and spoon. In May, 1850, at a dinner given by the cabin passengers, a sextant, valued at 30 guineas, was presented as a mark of their estimation of Captain Edwards's distinguished merits.
- 1077.—In September, 1849, the owners of the "*Mahomed Shah*" presented him with £50, for assistance rendered to that vessel when in a destitute condition at sea; also received from the passengers on the homeward voyage, in the "*Mount Stuart Elphinstone*," a handsome aneroid barometer, with appropriate testimonial.
- 1156.—In April, 1853, when in command of the "*Equator*," received a silver salver, weighing 100 ounces, from the owners of the "*Titania*," for saving the lives of 30 persons, taken from the wreck of that vessel during a heavy gale in the China seas, in the September previously; also from one of the passengers, so rescued, a gold spy-glass and sym-pesometer.
- 1225.—A handsome silver cup was presented to him for the judicious management displayed in rescuing 76 passengers from the "*King William*," which was wrecked about 10 miles from Newcastle, New South Wales: it bears the following inscription:—"Presented by the Cabin Passengers of the '*King William*' Steamer to George William Jackson, Esq., Harbour Master at Newcastle, as a mark of their gratitude for the prompt and efficient assistance rendered them during the wreck of that vessel on the morning of the 2nd July, 1839."
- 1459.—Has been presented with a valuable gold chronometer, bearing the following inscription:—"Presented to Captain John M'Kirdy, as a mark of esteem by a few friends, saloon passengers by the

Certificate

'*Champion of the Seas*,' from Melbourne to Liverpool, October 14th, 1856."

- 1643.—The underwriters of Lloyd's presented him with a gratuity of £100, for his meritorious conduct in saving the lives of the crew and passengers of the "*Nautilus*" steamer, which caught fire, July, 1847, on her passage from Alexandria to Liverpool. Presented with a silver tea-service by his passengers in the steam ship "*Lusitania*," in March 1854. In July, 1854, received a silver claret jug and salver from the passengers returning to England in the same vessel; and also on quitting the command, the officers and engineer presented a silver tankard bearing a suitable inscription.
1774. A silver salver was presented to him at Sydney, in May, 1853, accompanied by a purse of 340 sovereigns, as a testimonial of respect from the merchants, banking companies, and others of the city of Sydney, in recognition of the energy and promptitude displayed by him whilst in command of the "*Formosa*" steam-ship. May, 1854, received from the passengers, per "*Madras*," a gold chronometer and chain, as a mark of esteem and regard; and in July following, Lloyd's agents at Singapore presented him with a gratuity of 500 dollars, for services rendered to the "*Prince Arthur*." A silver tea-service from the passengers of the "*Madras*," in February, 1855; and shortly after, on his quitting that vessel, the officers presented him with a silver quart mug, as a mark of respect and esteem.
- 1799.—The passengers from England in the "*Digby*," on their arrival at Port Philip, in September, 1850, presented Captain Buchanan with a gold watch and chain, with a suitable address, acknowledging his humane treatment, his merits as a seaman, and his previous kindliness towards every one during the voyage.
- 1969.—On his return to England, in October, 1846, after the wreck of the hired transport vessel, "*Briton*," on Andaman islands, the Lords Commissioners of the Admiralty presented him with 100 guineas, as a mark of their approbation of his services.
- 2068.—Received from the owners of the "*Ina*" the sum of 30 guineas, for his praiseworthy conduct in bringing home that vessel after her collision in the Bay of Bengal.
- 2111.—The underwriters of Lloyd's, in the year 1851, presented the sum of £100, to be divided amongst the master and crew of the "*Apollo*," for their exemplary conduct during the period of six weeks which they were exposed in the Atlantic in a helpless state, and for their exertions in bringing the vessel in safety to London.
- 2145.—When master of the "*Baticola*," rescued the seamen of the "*Mayflower*," which capsized on 6th January, 1856, for which service he received a gold chronometer and chain from the President of the United States.
- 2603.—A gold chronometer and chain were presented to him by the President of the United States, in acknowledgment of his services in saving the crew of the "*Sebago*," on 10th January, 1856.
- 2609.—Has been presented with a valuable chronometer, on the lid of which is inserted a silver tablet,

Certificate

bearing the following inscription:—"The inhabitants of Mauritius present this chronometer to Mr. S. B. Sheard, late Second Officer of the '*Randolph*,' wrecked on this island, on the night of the 25th June, 1851, to mark their admiration of his gallantry and humanity in repeatedly risking his life, under circumstances of peril and danger, in order to save the Indian emigrants, in which he was eminently successful."

- 2847.—A handsome testimonial, consisting of a tea and coffee pot, cream ewer, and sugar basin, was presented by the owners of the American ship "*Continental*," for his gallant and humane conduct on falling in with that vessel in a disabled state at sea, on 21st Oct. 1853.
- 2884.—Received a silver snuff-box from 307 Irish emigrants, on a voyage from Plymouth to Sydney, in the "*Isabella*," of London, as a token of gratitude for his kindness.
- 2943.—For assistance rendered to the King and Queen of the French, in February, 1848, at the time of the Revolution in France, he received from their Majesties a diamond pin, as also a handsome silver vase, bearing the following inscription:—"Le Roi Louis Philippe, et la Reine Marie Amelie au Capitaine Paul de '*L'Express*,' en souvenir des 28 Fevrier et 2 Mars, 1848."
- 4373.—The Directors of the North of Europe Steam Navigation Company presented him with a silver salver, for his exertions in saving life at Balaklava, after the hurricane of November, 1854.
- 4856.—Received a gold snuff-box from the King of the Netherlands, as a token of approbation of his conduct in rescuing the crew of the "*Laura and Adèle*," in 1852.
- 5085.—April, 1849. Received from Messrs. Smith, Hufnagle, and Co., merchants, Calcutta, a silver cup, as a mark of respect and esteem, as consignees of the barque "*Regina*," of Sunderland, under his command.
- 5733.—Received a silver speaking-trumpet from the President of the United States, for his humane and gallant conduct in rescuing the master and crew of the shipwrecked barque "*Pilgrim*," of Massachusetts, in 1855.
- 5937.—The Emperor of the French presented him with a gold medal, in acknowledgment of his humane and generous conduct towards the crew of the "*Jacques*," of Rouen, in July, 1855.
- 6280.—The passengers per "*James Baines*," from Australia, at the termination of the voyage in May, 1855, presented him with £60, for his attention during the period they were on board that vessel.
- 6702.—The President of the United States rewarded him with a gold medal, of the value of £100, for his exertions in rescuing the master and crew of the "*Hampton*," when in a sinking state at sea, in Oct. 1855.
- 8847.—A gold medal was awarded to him by the Emperor of the French, for having saved the lives of the master and crew of the "*Louis le Grand*," of Bordeaux.
- 9178.—Received a silver medal from the President of the United States, in acknowledgment of his

Certificate

services in rescuing the master and crew of the "*Hampton*," when in a sinking state at sea, in Oct., 1855.

- 11,863.—The Committee of Lloyd's, as also the Royal National Shipwreck Institution, presented him with their honorary silver medals, for his gallant services in volunteering to rescue the crew of the "*Young England*," which was wrecked off Balbriggan, Ireland, on the 14th November, 1852.
- 12,008.—A gold medal was awarded him by the King of Sweden, for saving a boat containing four persons, at Faro, on 25th September, 1854.
- 12,748.—In October, 1853, a gold medal was presented

Certificate

to Mr. Edward Tulloch, second mate of the "*Meridian*," by the Chamber of Commerce, and the inhabitants of Mauritius, on account of his exertions and noble conduct in saving the lives of 87 passengers on board that ship, when wrecked on Amsterdam Island, on the 7th March in the same year.

- 16,278.—In August, 1850, a gold medal was awarded to him by the Sardinian Government, as a mark of their appreciation of his conduct, in having navigated the "*Providenza*" from Port Royal to Genoa at great personal risk, in consequence of the yellow fever then raging on board.

HONORARY REWARDS TO OFFICERS NOT POSSESSING CERTIFICATES OF COMPETENCY.

HENRY BEVERLEY DISNEY, Junr., in 1838, received from the King of Holland a gold medal and certificate of merit; from the town of Harlingen, a silver cup; and from the South Holland Royal Humane Society, a first class gold medal,—for rescuing, during a violent hurricane, the nine surviving persons from the deck of a Dutch packet, trading between Harlingen and Amsterdam.

The underwriters of Lloyd's, in 1843, presented MR. BRACEY R. WILSON and the CREW of the "*Cubana*" the sum of £100, "in consideration of the able conduct of the master, and the great exertions of the crew, in not abandoning their vessel during a hurricane, on their passage from St. Jago de Cuba to England."

SAMUEL BULLARD received from the Senate of Hamburg a memorial and a medal, for his assistance in extinguishing the fire which occurred in that city on the 6th May, 1843.

JAMES COET, of the "*Favourite*," in 1848, received from the Jersey Mutual Insurance Society £15 for his praiseworthy conduct in saving the above-named vessel.

The underwriters of Lloyd's, in the year 1839, presented MR. GEORGE ORANGE, master of the "*Amelia*," of Jersey, with a chronometer and silver salver, "as a testimonial of their grateful sense of his indefatigable exertions in saving the cargo of the '*Amelia*,' after the loss of that vessel at Fulche."

WILLIAM HEATH ROACH, in 1846, when in command of the "*Laurel*," received a gold medal from the French government, for rescuing the master and crew of "*Le Dorade*," of Dunkirk.

The French Minister of Marine granted, in May, 1851, a silver medal of the second class and a diploma of merit to JOHN LEE CRANE, master of the brig "*Triphena*," for saving a French fisherman, whose boat had upset at sea.

JOHN WILLIAMS, in 1849, received, at New York, from one of the principal insurance companies, a gold watch and achromatic telescope, for his great exertions in saving the "*Lady Bagot*" and her valuable cargo.

In October, 1851, the under-mentioned were presented with certificates and silver medals by the French government, for services rendered to French seamen :—LAWRENCE, of the "*Sedfast*;" THOMAS WELLS, of the "*Caroline Schenck*;" ROBERT DEJRT, of the "*Eliza Sharp*;" EDWARD DANE, of the steam-packet "*Queen of the French*;" and JAMES MYLIE, of the brig "*Eliza*."

JOHN LARBALESTIER, in 1849, received from the underwriters of the ship "*Agnes*" the sum of £100, as a testimony of the high opinion they entertained of his conduct, in bringing home in safety from Honduras, during most dreadful weather, the above-named vessel and her valuable cargo.

WILLIAM BRINSMEAD, in 1829, received a silver medal from the Royal National Institution for the Preservation of Life from Shipwreck.

WILLIAM CHAPPELL, in 1833, also received a silver medal from the same society, for rescuing the crew of the "*Delabole*."

BENJAMIN ROBERTSON, master of the "*Varoon*," received from the Emperor of the French, in May, 1854, a gold medal, for services rendered to the crew of the "*Pekin*," of Nantes, after the shipwreck of that vessel.

THOMAS WILLIAM GREEN received a silver medal from Captain Logan, of the ship "*Mars*," which was wrecked on the Gunfleet Sands, in January, 1837, for his heroic conduct on that occasion, and thus saving the lives of the master and ten of the crew. In August, 1853, a silver snuff-box was presented by the merchants of Newcastle-upon-Tyne, as an acknowledgment for long and faithful services. April, 1854, when in command of the steamship "*Newcastle*," a subscription was made among the lady passengers, and a handsome silver snuff-box was presented, as a token of their approbation "of his heroic conduct during a severe gale of wind, and of his humane and manly behaviour towards a female child that died on board." January, 1854, a silver medal was presented to him "by the merchants of Northumberland and Durham, as an acknowledgment for his long and

faithful services in the River Tyne ;" and a silver cruet-stand was also presented by the merchants of Hexham for his "sobriety, civility, and industry."

JAMES FERGUSON, in April, 1856, received from the President of the United States the sum of £50 for rescuing the crew of the American ship "*Olivia*."

THOMAS GALE. In acknowledgment of the services rendered in saving the crew of the "*Georgia*," of Boston, in October, 1854, the President of the United States presented him with a gold chronometer and chain.

JOHN BAXFIELD received a certificate of honour and gold medal from the French Minister of Marine, on account of his humane conduct to the master and crew of the wrecked vessel, "*La Mara*," of Roscoff.

ALEXANDER M'KENZIE, received from the Belgian Government a gold medal and diploma, for saving the crew of the "*La Reine*," which foundered off Flam-borough Head, in the spring of 1856.

The mate and crew of the "*Adolph*," of Odense, presented a silver tankard to CAPTAIN JOHN FORBES, of the "*Mary Ann*," in commemoration of their gratitude, and for the extreme kindness received on the 15th of November, 1856, when taken from their own vessel, which was in a sinking state.

THOMAS GLAISTER SHARP. A chronometer and gold chain was presented to him by the American Government, for his humane and gallant conduct, in rescuing the crew of the "*Cathedral*," of Boston, which vessel was wrecked in February, 1857.

JOHN RYAN. In August, 1857, a massive silver tea and coffee service, weighing upwards of 80 ounces, and bearing a suitable inscription, was presented to him, as a testimonial of the respect entertained by the numerous subscribers for his nautical skill, and his uniform courtesy to the passengers of the steamer "*Little Western*."

In September 1857, JAMES SHARLOCK GRAHAM, master of the "*Abel Gower*," received from the King of Sweden and Norway, a gold medal in token of his approbation of his gallant and disinterested conduct in rescuing the captain and crew of a Swedish merchant vessel when on fire in the Atlantic, and landing them safely at Lisbon.

JOHN DE GRUCHY received a gold medal from the President of the United States, in acknowledgment of services rendered to the crew of the American ship "*William M. Rogers*," in June, 1857.

JOHN BLAMPFIED. The inhabitants of Jersey entered into a public subscription, and presented him with a watch and silver teapot, which bore the following inscription :—"Presented to Mr. JOHN BLAMPFIED, Master of the '*Wave Queen*' of Jersey, for his heroic conduct in rescuing twenty-two of his fellow creatures from on board the steamer '*Briton*,' when in a sinking state during a heavy gale off Ushant, on the night of the 11th of January, 1857."

Obituary.

NAME OF DECEASED.	DATE AND PLACE OF DEATH.
Allan, George.....	At Bahia, March 7, 1857.
Allan, James.....	At Buenos Ayres, January 18, 1857.
Alberty, Henry.....	At St. Thomas's, May 23, 1857.
Allen, William.....	Drowned, at sea, Sep. 9, 1856.
Aney, George.....	At Brass River, July 23, 1857.
Anderson, William.....	At Matacong, July 13, 1856.
Armour, Edward.....	At sea, Aug. 24, 1857.
Askew, William.....	Drowned, in "Osprey," of Liverpool.
Ateridge, Richard.....	"Andes," of Liverpool, sailed from St. Helena, July 8, 1856, and not since heard of.

MEMORANDUM.

When the Official Number of a Vessel does not appear in the

ANNEXED LIST.

it must be sought for in the

SUPPLEMENTS.

Supplements, containing the Names, Official Numbers, and Signal Letters of all

NEW VESSELS,

are published Monthly, for the use of Signal Stations and Masters of Vessels proceeding on Voyages.

They are forwarded by Post to Subscribers, and may be obtained at all Shipping Offices.

Every succeeding Supplement embraces all Vessels numbered since the publication of the Book, and the whole will be incorporated in the next yearly issue of the

MERCANTILE NAVY LIST.

LIST OF BRITISH REGISTERED VESSELS

WITH THEIR OFFICIAL NUMBERS,

AND THE SIGNAL LETTERS BY WHICH THEY ARE DISTINGUISHED IN THE
COMMERCIAL CODE OF SIGNALS FOR THE USE OF ALL NATIONS.

The Ensign to be shown at the Peak, over the Code Pendant, when the Signal Letters are hoisted.

† Denotes Steam-Vessels.

NAMES
OF
FOREIGN VESSELS
TO WHICH SPECIAL SIGNALS HAVE BEEN APPROPRIATED.

Supplements will be published Monthly—every succeeding Supplement embracing the Names of all Vessels to which Signals have been appropriated since the publication of the Annual Book.

. For Alphabetical Index see page 228.

TO

OWNERS AND MASTERS OF FOREIGN VESSELS.

OWNERS and MASTERS desirous of having the Names of their Vessels inserted in the "Mercantile Navy List," and its Monthly Supplements, in order that a Signal may be appropriated, by means of which their identity can be made known to British Ships of war, passing Vessels, or to Coast Guard and Signal Stations, so that they may be reported in the SHIPPING LISTS, are requested to forward, through the Consuls of their Nations, or an established London Agency, the following particulars :—

The Name of the Vessel in full.
Tonnage.
Horse Power, if a Steam Vessel.
Port of Registry.
National Flag under which the Vessel sails.

All Communications to be addressed to

J. H. BROWN, Esq.,
Registrar-General of Seamen and Shipping,
Adelaide Place,
London Bridge,
LONDON—E. C.

* * * The Names of Foreign Vessels received, agreeably to the above Notice, too late for insertion, will appear in the Monthly Supplements, and be incorporated in the "Mercantile Navy List" for 1859.

LIST OF THE NAMES OF FOREIGN VESSELS

TO WHICH SPECIAL SIGNALS HAVE BEEN APPROPRIATED.

To be hoisted when meeting British Ships of War, passing Vessels, Coast-Guard or Signal Stations, so that they may be reported in the Shipping Lists.

••• The National Ensign to be shown at the Peak, over the Code Pendant, when this or any other Signal is hoisted, pertaining to the "Commercial Code of Signals for the Use of all Nations."

† Denotes Steam Vessels.

Note.—This Return, prepared by the Registrar-General of Seamen, cannot be given for earlier years. It includes Channel Islands Vessels, but not those of the British Plantations.

The Home Trade signifies on the Coasts of the United Kingdom, or to Ports between the limits of the River Elbe and Brest.

The Foreign Trade signifies to Ports beyond such limits.

No Foreign-going Vessel is included which has not been so reported within four years, and no Home Trade Vessel which has not been reported within one year. It is possible that some Vessels may be included which have ceased to exist, or are no longer employed as British Vessels, but every endeavour is made to ascertain and strike off such Vessels.

With respect to the Crews, a very small deduction ought to be made for the case of men who join a fresh ship immediately on their discharge from the former one, which happens to remain in Port.

SHIPPING RETURNS.

AN ACCOUNT of the TONNAGE, distinguishing BRITISH from FOREIGN, and giving the TOTAL of each (both ENTERED INWARDS and CLEARED OUTWARDS) for the Years 1814 to 1855, inclusive.

OFFICIAL NOTICES.

Minute of the Lords of the Committee of Privy Council for Trade.

At the Council Chamber, Whitehall, the 2nd July, 1855, by the Right Honourable the Lords of the Committee of Council appointed for the consideration of all matters relating to Trade and Foreign Plantations, present:

THE LORD STANLEY OF ALDERLEY,
THE RIGHT HONOURABLE E. P. BOUVIERE,

My Lords are pleased to appoint the following Officers and Gentlemen as a Committee to inquire into and report upon the Subject of a Code of Signals to be used at Sea:—

Admiral F. W. Beechey, F.R.S., *Chairman*.
Captain C. R. D. Bethune, R.N.
Captain Robert Fitzroy, R.N.
Captain G. A. Halsted, R.N.
Captain H. Bonham Bax, H.C.S.
Captain George Denny, H.C.S.
Joseph Mondel, Esquire.
W. Chapman Harnett, Esquire.
The Registrar-General of Seamen.

STANLEY OF ALDERLEY.

REPORT OF THE COMMITTEE ON A CODE OF SIGNALS TO BE USED AT SEA.

TO THE LORDS OF THE COMMITTEE OF PRIVY COUNCIL FOR TRADE.

COMMITTEE ROOM, BOARD OF TRADE,
WHITEHALL, 24th Sept. 1856.

MY LORDS,

In pursuance of your Lordships' Minute of the 2nd July, 1855,* appointing us a Committee "to inquire into and report upon the subject of a Code of Signals to be used at Sea," we assembled on the 3rd of that month, and have since from time to time continued our meetings; and, having fully considered the subject, we have the honour to submit the following Report of our proceedings.

Before entering upon the general question of the formation of a New Code of Signals for the Mercantile Navy, we thought it right to examine such published Codes as have from time to time been in use in the Royal Navy and the British as well as Foreign Merchant Services. They are comprised in the following list:—

1. Admiralty Code	1808
2. Lynn's	1818
3. Squire's	1820

* See Appendix A.

4. Admiralty	1826
5. Phillipp's	1836
6. Röhde's	1836
7. Raper's	1828
8. Admiralty (present Code).	
9. Walker's	1841
10. Watson's	—
11. Rogers' (American)	1854
12. Reynold's (French)	1855
13. Marryatt's	1854
	1856

In addition to the above, several other Codes, more or less of a local or limited character, were noticed by us, as also various suggestions for signalling at sea that have been submitted to us, either directly or through the Board of Trade and other Departments of Government.

After carefully examining the modes of signalling adopted in these various codes and plans, we were of opinion that, although all were in some respects unsatisfactory in themselves, as not fulfilling all the requirements of the present day, yet there existed in them the elements for forming an improved Code for the use of Ships.

We had particularly to consider that, independently of a good system of Signals for effecting a *Telegraphic communication* between ships, one very important object in framing a system for the purpose was to provide, at the same time, facilities for making *Ships' Names or Numbers*.

The great advantage to be derived from an easy method of exchanging *Ships' Names by Signals* is obvious.

In a Report which was submitted to your Lordships by the Registrar-General of Seamen, in March, 1855 (a copy of which is annexed to this Report*), your Lordships' attention is drawn to the provisions of the Merchant Shipping Act, 1854, by which every British registered ship is compelled to have permanently marked on her main beam the number,—now generally described as her "Official Number,"—by which she is registered, which is entered upon her Certificate of Registry, and by which she may be at once identified without reference to her name.

These numbers will, it is calculated, amount to upwards of 40,000 in the first year after registry has become general; and as the cancelled numbers will not be renewed until a lapse of perhaps five years, it has been calculated that upwards of 50,000 numbers will be outstanding at one time, and that, consequently, that number must be provided for in the Code, in addition to the number required for Telegraphic purposes.

We next considered what principles should be laid down as the basis for the formation of an efficient Code, and resolved as follows:—

1. The Code ought to be comprehensive and clear, and not expensive.

* See Appendix B.

2. It ought to provide for not less than 20,000 distinct Signals, and should, besides, be capable of designating not less than 50,000 ships, with power of extension if required.
3. It should express the nature of the Signal made by the combination of the signs employed, and the more important Signals should be expressed by the more simple combinations.
4. A Signal should not consist of more than Four Flags or Symbols at one hoist.
5. A Signal should be made complete in one hoist in one place.
6. Signals should have the same meaning wherever shown.
7. The Signal Book should be so arranged, either numerically or alphabetically, in classes, as to admit of the subject being readily referred to, and provision should be made for future additions.
8. The Code should be so framed as to be capable of adaptation for *international communication*.

As regards the existing system of making Signals at sea, we submit the following observations:

The Code of Signals most generally used at this time on board both British and Foreign ships is that known as "Marryatt's." There is also a French Code by Captain Reynold, of the French Imperial Navy, which has been translated into English, and an American Code by Mr. Rogers, of Baltimore, in use in their respective countries, and, as we are informed, recognised by their respective Governments.

These Codes are all based on the Numeral System; that is to say, the Flags are numbered from 1 to 9, with a Cipher Flag (0), and the Signals are composed of one or more Flags, representing by numbers the words or sentences required to be indicated.

Perhaps the best argument in favour of this (the Numeral) system is the fact, that all the Codes in use (with the exception of the Vocabulary used in the Royal Navy) are based on it, and a Code on any other principle would be so far at variance with existing habits; but, whatever importance is attached to that circumstance, there are other considerations of equal weight which must not be lost sight of, and which have influenced us in forming an opinion on the merits of the system.

It is perhaps advisable briefly to submit to your Lordships the objections which it appears to us exist to that method of signalling.

If the number of Signals required were very limited, we believe that the Numeral System above referred to would be sufficient; but since it is intended to give the Official Numbers of Ships, and as a range of Numerals of not less than 70,000 will be required, we are of opinion that that system is quite inadequate.

It is obvious that to represent such Numbers as 22, 131, 444, 5656, &c., with only a single set of Flags, means must be devised to substitute some Sign—either a Flag or a Pendant—to represent the Numeral Flag already employed, and of which no duplicate is carried. This can only be accomplished with one set of Flags by the use of distinct Signs called "Substitutes or Repeaters," and which may be made to repeat the Flags for which they are designed to act as Substitutes; thus, by the following, which is the simplest method,

A	repeats the 1st Flag in the Hoist.
B	" 2nd "
C	" 3rd "

We think that there is great objection to the use of these Repeating Flags. Great caution is necessary in placing them, and there is always risk of making mistakes.

It also involves the necessity of making one Substitute repeat another Substitute, which is objectionable, but unavoidable.

If further proof were required that the use of Repeating Flags is to be avoided, we would refer to the Codes of

Marryatt, Rogers, and Reynold, who have hitherto evaded their use by omitting in their respective Codes all, or nearly all, numbers in which the same numeral appears more than once, such as 44, 313, 6161, 8888, &c.; and by dispensing with the aid of these auxiliaries, they greatly lessen the capacity of their Codes, as is shown thus:

10 Numerals with 3 Repeaters would give 9999 Signals.

10 Numerals without the aid of Repeaters
make only 5660 "

Showing a loss of 4139 Numbers

in every 10,000 Signals.

Any given number may, however, be made with 10 Flags and 3 Repeaters, up to 9999; but a Numeral Code consisting of 13 Flags (if no more than 4 Flags are to be shown in one hoist, and if the Signal is to be complete in that hoist, and not divided by exhibiting a part of it in another place) must of necessity be limited to 9999 Signals.

It is true that in the Numeral Code, by the use of distinguishing or divisional Flags or Pendants, as many different series of numbers may be obtained as there are Pendants or Flags employed for the purpose, and that by changing the position of these distinguishing Flags the number of series may be multiplied.

The plan of obtaining high Numerals by both Marryatt and Reynold's Codes proceeds on the above principle of distinguishing Pendants or Flags; that is to say, particular Flags designate certain classes of Signals, such as the "Telegraph" Flag and the "Mendezvous" Flag, which signify, respectively, either that you are *conversing* or are appointing a place of meeting; and Pendants are used for classifying ships according to the Colour of the Pendant employed. For the purpose also of increasing the Numeral power of the Signal Book (that is, of effecting a *fresh series of Signals*), the same Pendant may be placed at the top or bottom or in the middle of the hoist, and its value, &c. its Numeral power, may be varied in each separate position. In all these Codes *Five Flags in a Hoist* are used to make high numbers; and in the latest edition of Marryatt's Code, Four Repeating Flags are employed for making consecutive numbers as high as 99,999. Mr. Rogers, in the present edition of his Code, does not employ Repeaters, but he has a scheme for so doing, in the same manner as by Marryatt's Code.

We found other means adopted for enlarging a Code of Signals, namely, by the use of distinguishing Pendants shown from another Masthead, or by dividing the Signal, and showing part on one Mast, and part elsewhere.

We have already referred to our decision, that in any efficient Code no more than Four Flags ought to be shown in one hoist, and that a Signal ought to be made in one hoist at one place.

Upon these grounds, therefore, the system of Numerals appeared to us to be defective for a comprehensive Code, as not being capable of designating in a consecutive Numerical Series 70,000 distinct Signals without at any time showing more than Four Flags for each Signal made; and it is clear, therefore, that it would have been inconsistent with the principles laid down to have proceeded with the framing of a Code upon the basis of a system of Numeral Signs.

Having thus set aside the Numeral System, we had to consider what other method would best meet the requirements of an efficient Code.

There was only one other method known to us by which the objects we had in view could be attained.

It was that of taking a number of Signs (or Flags) sufficient for the purpose, and by their transposition effecting a certain number of permutations, each different combination of two or more of the Signs so taken forming a Signal distinct in itself and having a particular signification.

We subjoin a Table showing the number of distinct Signals which ten or more Flags are capable, by permutation, of forming in hoists of from two to four Signs at a time in one place.

PERMUTATIONS

OF WHICH THE FOLLOWING NUMBERS OF SIGNS ARE CAPABLE.

Single Signs not reckoned.	With 10.	With 11.	With 12.	With 13.	With 14.	With 15.	With 16.	With 17.	With 18.	With 19.	With 20.
In Hoist of 2 Signs	90	110	132	156	182	210	240	272	306	342	380
Ditto 3	720	990	1,320	1,716	2,184	2,730	3,360	4,080	4,896	5,814	6,840
Ditto 4	5,040	7,920	11,880	17,160	24,024	32,760	43,680	57,120	73,440	93,024	116,280
Ditto 5	30,240	55,440	95,040	154,440	240,240	380,360	480,480	742,560	1,028,160	1,395,360	1,860,480
Total with 2, 3, 4, and 5	36,190	64,460	108,372								
Total with 2, 3, and 4				19,032	26,390	35,700	47,280	61,472	78,642	99,180	123,500

From the above Table it will be seen that 18 Flags will be requisite to give the number of Signals which we have stated to be necessary, *i.e.* 70,000 distinct Signals, with power of extension to 78,642 Signals, each Signal consisting of a hoist of not more than *Four Flags*.

The actual number (18) is only two more than vessels using Marryatt's Code now carry; and having decided upon this number, we proceeded to the *naming* of the Flags or Signs, in devising which it appeared to us—

1. That the characters should be familiar ones.
2. That they should recur in a well-known order, for facility of reference.

The letters of the alphabet seemed best adapted for the purpose, and we determined that it would be most convenient to assign to each of the 18 Flags a letter of the alphabet, leaving out the vowels.

The omission of the vowels was forced upon us from the circumstance, that by introducing them every objectionable word composed of four letters or less, not only in our own but in foreign languages, would appear in the Code in the course of the permutation of the letters of the alphabet.

Too much importance should not, however, be set upon the objection which naturally occurs, that the alphabet is thus incomplete, and that the power of spelling is apparently lost; for it should be understood that the letters are not used *as letters*, but *as signs*, characterising the different Flags by the most familiar method, and in an order well known.

The last consideration which occupied our attention was the colouring of the Flags to be used.

In determining this question, the following points were discussed:—

1. Whether Marryatt's Flags were the best adapted in shape and colour for signalling?
2. Whether Marryatt's Flags being generally in use on board Merchant Ships of this and Foreign Countries, and also, as we have found, at many Foreign Signal Stations, it would not be convenient to adopt them as far as possible?

We were not prepared to decide the first question in the affirmative, but considering the heavy expense of procuring a new set of Flags, and in deference to what appeared to be a general wish,—that Flags which are, and have been for many years, so generally in use in Merchant Ships, and with which mariners are familiar, should not, without very strong reasons, be dispensed with,—we determined to recommend the adop-

tion of the Flags now employed in Marryatt's Code (with slight variations), as far as they were applicable.

In conformity with the foregoing Resolutions, a Signal Book has been prepared, and accompanies this Report.

In submitting this Volume, we have only to remark, as regards the general contents, that it does not materially differ from other Signal Books.

The general principles of the Code, and directions for its practical working, are explained in the commencement of the book; but we desire to point out to your Lordships the main advantages which it appears to us to possess over any other Code that we have had before us:

First, its comprehensiveness and distinctness, the *combination of the Signs expressing the nature* of the Signal made—two Flags or Symbols in a hoist always meaning either *Danger* or *Urgency*—and the Signals throughout being arranged in a consecutive series, so that any individual Signal, whether a word or a sentence, may readily be found; secondly, that the Flags and Pendants are so arranged as by their position to characterise the Signals made; thus,

In Signals made with Two Signs—

The Burgee uppermost represents "Attention Signals."
 A Pendant uppermost "Compass Signals."
 And a square Flag uppermost represents "Danger Signals."

In Signals composed of Four Signs—

The Burgee uppermost represents "Geographical."
 A Pendant uppermost "Vocabulary."
 And a square Flag uppermost represents "Ships' Names."

and thirdly, that the arrangement of the Code is such as to hold out to *Foreigners the same advantages* that it affords to our own marine.

Part I. is that which, by translation, may be made an Universal Language of Signals. It is intended that the corresponding combination of any two or more of the 18 Signal Flags which any Nation adopting the Commercial Code may please to employ shall always have the same meaning, in whatever language the Signal may be expressed; and it will only remain for those Nations who choose to adopt the Code, to make a Dictionary or Alphabetical Index to the words and sentences so arranged, which, corresponding with Part II. of the English Code, will be the Foreigners' National Vocabulary, as Part II. of our own Code is the English Vocabulary.

A further advantage is, that the International Signals, con-

sisting of all such words and sentences as can ordinarily be required for any purpose, are confined within the limit of the 3-Flag Signals, excepting only the Geographical Table, which, from the number of places, &c., required to be indicated, it was not found possible to include within that limit.

In short, if an Englishman or a Foreigner desires, with such a code before him, to *make a Signal*, he is enabled to express his wishes by referring to the *Alphabetical Part II.* of his Code, and he will there find the combination of Letters, or Flags, which must be used. On the other hand, if an Englishman or a Foreigner wishes to decipher or make out *any Signal* taken from this Code, *which is to be mutually intelligible*, he is enabled to do so by referring to *Part I.* of his Signal Book, in which the meaning of the Signal displayed is at once obtained—that meaning being the same in all languages.

Part II. of the Code is the National Vocabulary and Index to the Signals arranged in Part I.; but it is far more comprehensive, and contains much that is not to be found in Part I.

This Part is alphabetically arranged throughout; and opposite to each word or sentence are placed the Letters or Signs by which it is to be expressed,—either to the right or to the left hand.

If the word or sentence required to be indicated has any Letters set against it *to the right*, it will be found in the International Part I., and can be used for communicating in a *Foreign Language*, but not otherwise.

We entertain the hope, that should the Code be appreciated and enter into general use, at some future day all Nations may agree to use one set of Flags for commercial purposes, and thus complete a mode of universal communication.

In the meantime, we recommend that Foreign Maritime States be invited to forward Plates of the Signal Flags which they have in use on board their own Merchant Ships, in order that a corresponding arrangement of Symbols may be mutually agreed upon, should they think proper to adopt the Code; but it should be borne in mind, that to reap the full benefit of the Code the Flags and Pendants to be employed ought to be in shape and order similar to those proposed by us.

In conclusion, we desire to explain the reasons which have decided us upon omitting the List of Ships from the Signal Book now presented.

In the first place, the number of British registered ships is so great, that we are of opinion that to have included the List would have increased the size of the volume to such an extent as to have rendered it too cumbersome as a book designed for ready reference, and, at the same time, it would have greatly enhanced its price; and, secondly, it would be very inconvenient and expensive to introduce a Code which must constantly be revised, it being essential that a List of Ships, to be of real use, should be periodically corrected.

About 40,000 Signals would have to be at once appropriated, and a list of 40,000 vessels to be alphabetically arranged as well; and it is needless to say that the above would form a book of considerable size.

Under these circumstances, we saw grave objections to the introduction into the present volume of the List of British Ships, which we consider will be better published in a separate form, as an Authorised Official List to which the Signals may be appropriated, as has been suggested to your Lordships in a letter from the Registrar-General of Seamen, a copy of which is appended to this Report.*

This List can be annually corrected, and should be sold at as cheap a rate as possible; and if it is found that the cost of its publication will not admit of its sale (without loss) at a low price we would suggest, that as this Official List will be a very valuable source of information, in whatever form it may be decided to publish it, both to the officers of the Government at home and abroad, as well as to the Shipping and Mercantile Community generally, your Lordships may consider whether a sum may not properly be granted out of

the Mercantile Marine Fund towards the expense of a publication which, if widely circulated, would tend so greatly to the benefit of Shipping.

We have the honour to be,

My Lords,

Your Lordships' obedient Servants,

F. W. BERCLET.
CHAS. R. D. BETHUNE.
ROBERT FITZROY.
HENRY B. BAX.
GEO. A. HALSTED.
GEORGE DENNY.
W. C. HARNETT.
J. MONDEL.
J. H. BROWN.

WALTER F. LARKINS, *Secretary.*

APPENDIX A.

LIST OF THE MEMBERS OF THE COMMITTEE APPOINTED BY THE BOARD OF TRADE "TO INQUIRE INTO AND REPORT UPON THE SUBJECT OF A CODE OF SIGNALS TO BE USED AT SEA," SHOWING BY WHOM EACH MEMBER WAS NOMINATED.

Members of Committee.	By whom nominated.
Rear Admiral Beechey, F.R.S. Captain Robert Fitzroy, R.N. J. H. Brown, Esq., the Registrar-General of Seamen	Board of Trade.
Rear Admiral Bethune Captain H. B. Bax, H.C.S., one of the Elder Brethren of the Trinity House	Admiralty.
Captain G. A. Halsted, R.N., Secretary of Lloyd's W. Chapman Harnett, Esq.	Trinity House. Lloyd's Committee.
Captain G. Denny, H.C.S.	General Shipowners' Society.
Joseph Mondel, Esq.	Liverpool Shipowners' Association.

APPENDIX B.

GENERAL REGISTER AND RECORD OFFICE OF SHIPS, CUSTOM HOUSE, LONDON, March 30, 1855.

1. The Merchant Shipping Act of 1854 provides that "from and after the 1st of May, 1855," to every British registered ship shall be appropriated an official number, to be entered upon her certificate of registry, and permanently marked upon her main beam.

2. And the Lords of the Committee of Privy Council for Trade have been pleased to direct that such official number shall be assigned in continuous arithmetical succession, and attach invariably to the vessel's name, so as to insure, that through all changes of ownership or Port of Registry no two ships shall be numbered alike.

3. This regulation will greatly facilitate official operations, by the ready mode of identifying each particular vessel, and avoid the inconvenience now experienced, owing to many vessels belonging to the same port, and of the same tonnage, and bearing the same name, necessarily changing their identity when registered anew in other ports.

4. In order to extend the utility of this regulation to vessels *already registered*, their Lordships have been pleased to direct that a special official number shall be also assigned to all such vessels, to be marked upon the existing certificate of registry, when presented at any custom-house; and provision has been made for carrying this regulation into effect.

5. The identity of every particular vessel being thus established, the inconvenience that has heretofore existed will no longer be felt. But, great as is the advantage of this identity, the extent of the benefit of which the regulation is capable,

* See Appendix C.

will be but imperfectly realised, until means are devised and established for communicating these distinctive numbers between all ships passing at sea, and signalling to stations on shore.

6. The present number of British registered vessels amounts to about 35,000, and 1,500 new vessels are added annually. It will, therefore, be necessary to appropriate, in a signal book, at least 50,000 symbols, for the purpose of signifying the special numbers of these vessels.

7. There is no Code of Signals in existence which under its present arrangements, and with its present number of flags, is capable of accomplishing this (and other objects enumerated in paragraphs 11 and 12), without such complexity as would make the interpretation very difficult.

8. As it is of the highest importance that the community should not be deprived of the great benefit that must arise from the existence of an established means of general communication, it is essential to consider whether any of the Codes at present in use can be made available, by better arrangement, and a moderate addition to their flags, or in other respects applied to the purpose.

If such should be found practicable, it is desirable that one of them (perhaps that which has the greatest circulation) should be selected and brought into general operation.

9. But, whatever means may be adopted in these respects, it is certain, that when once an universal Code has been determined upon, the under-mentioned advantages will result.

10. First, it will afford a ready means of making known to signal stations, or when ships pass each other at sea, the identity of particular vessels, so that their progress or whereabouts may be correctly reported.

11. Secondly, of communicating at sea the wants and wishes of masters of vessels.

12. Thirdly, of extending the means of intercourse to the vessels of all countries, by the establishment of an International Code of Signals.

13. Such palpable advantages, capable of being realised by this beneficial regulation of special numbering, which establishes the principal element heretofore wanting, will, no doubt, speedily become apparent, and give rise to propositions, either for amending the present signal books, or publishing new ones; and as each of the existing Codes would probably be extended by its author, and the evil of the present complicated signals consequently perpetuated, the difficulty of remedy will be increased.

14. I hasten, therefore, to bring the matter under their Lordships' notice, in order to obviate the obstruction to establishing *one universal Code*, which the anticipated multiplicity of schemes will occasion.

15. And I respectfully submit that the *immediate consideration* of the matter in its several bearings becomes most necessary, not only for the reasons stated, but in order that the views of shipowners and others interested, and the sanction of their Lordships, may be obtained in favour of an established Code of Signals for the mercantile marine, which shall embrace all the requisites of such a scheme.

16. There are several Codes of Signals in operation at present, and it would (as before observed) be desirable to adopt the Flags, if not the text book, most generally used, provided they could be made sufficient for the purpose, so as to save expense.

17. It is obvious, however, that such a Code as would be practically useful, easily interpreted, and calculated for universal application, must deviate in many respects from any existing one, in order to avoid the complexities now so generally complained of.

18. As this proposition involves important objects calculated to facilitate the ends of commerce and navigation, and to establish a closer communion between maritime nations, and will require very careful consideration, in order that it may be well matured before it receives the public sanction, and the influential support necessary for its success, I therefore further submit that,—

19. Should their Lordships be pleased to approve of the proposal, whether, in the first place, it might not be desirable

to ascertain the views of the Local Marine Boards, Lloyd's, and other mercantile bodies interested in so universal a method of communicating correctly the progress and whereabouts of trading vessels, and other objects attainable by a well-designed Code of Signals.

20. If after such reference, it should be determined to proceed in the matter, it might be desirable to form a committee to consider the subject, consisting of persons named by parties whose interests are concerned, or of members called together by the Board of Trade.

21. That the shipping offices, or customs, may be made available for correcting ships' Signal Books half yearly, and at the termination of each foreign voyage; and also for giving facilities to those who adopt the sanctioned Code.

22. That a competent person should be appointed to superintend the issue and correction of Signal Books, and the whole expense covered by small charges for the books, and for the periodical corrections.

23. For the original expense of five or six pounds for Flags,* and a yearly charge of one shilling for corrections, ship masters would be able to make known the progress of voyages to the public generally, but more particularly to the persons interested in the fate of every individual vessel, her crew and cargo.

I have, &c.

(Signed) J. H. BROWN,
Registrar-General of Seamen.

APPENDIX C.

GENERAL REGISTER AND RECORD OFFICE OF SEAMEN,
CUSTOM HOUSE, LONDON, March 27, 1856.

SIR,—In compliance with their Lordships' directions that I should report fully upon the desirableness of extending the scope and utility of the "Mercantile Navy List," and printing therein lists of the registered vessels belonging to the British empire, with the official number by which each vessel is distinguished, together with any symbols that shall be devised by the Signal Committee now sitting for interpreting those numbers, so that the identity of a vessel may be intimated, without mistake, by a simple and ready process; also, as to the utility of the aforesaid system for official purposes, I beg leave to make the following statement:—

Having brought this matter under their Lordships' consideration in my letter of the 30th of March, 1855 (a copy of which is annexed †), their Lordships were pleased to refer my proposal to certain influential parties connected with the shipping interest, who generally concurred in the utility of establishing a means of signifying by Signals the official numbers assigned to every registered ship. This subject has accordingly received great attention from the committee appointed to consider the subject of Signals, who, it is understood, will shortly make their Report.

Meanwhile, the appropriation of the official numbers has been carried into effect, so far as can be accomplished until the return of those vessels from abroad which may not have obtained numbers in the colonial ports of the British empire.

The new mode of identifying ships is intended to supersede the one now in use, which, owing to many vessels bearing the same name, frequently leads to error, and always makes it necessary to specify certain particulars (in addition to the name), such as the port of registry, the number, and year of registry in that port, &c. &c.; the enumeration of which particulars (often changing with every change of ownership) is attended with trouble, delay, and uncertainty, but *must* be made known before a vessel can be *correctly identified*.

The appropriation of an exclusive number to every registered ship is not, however, sufficient *in itself*, and will not realise the utility of which the design is capable, unless a book of reference is prepared, issued, and from time to time corrected, so that (for official purposes) officers of Her

* Those already possessing the Flags in use would only require the additional ones.

† See Appendix B.

Majesty's Navy, of the Board of Trade, the Customs, Coast Guard, Trinity House, Consuls in foreign ports, &c. &c., shall have an easy means of reference, and thus avoid or correct errors in reports respecting vessels, or their crews; and also that these officers may have the opportunity of comparing the official numbers endorsed on ships' certificates with those in the official List.

This List will show the particular numbers cancelled from time to time, and by this means obviate any inconvenience that may possibly arise from vessels assuming false or erroneous names or characters by means of obsolete registers.

The evident advantage of the present mode of identifying each ship by an official number, over the old system, has been universally admitted; and the requirement is readily complied with by ship owners and masters, as soon as opportunities for obtaining the official number occur; but the utility of which it is further capable might not be apparent (without further explanation) to those who have not given the matter much consideration. And as their Lordships may wish to ascertain the opinions of the shipping interest by reference to Lloyd's Committee, the Local Marine Boards, and the several Societies, it becomes desirable to point out the peculiar facilities which the regulation affords, not only for the official purposes above mentioned, but for the general and private interests of those concerned in trade.

The importance of correct reports and accounts of matters affecting shipping is apparent from the many journals and circulars established for this especial purpose, and in most newspapers shipping intelligence forms a prominent feature.

This is not to be wondered at, considering the vast number of interests concerned in the fate of life and property afloat; anything, therefore, that tends to facilitate or to insure the correctness of these reports will be eagerly appreciated.

Now, as every British registered ship is or will soon be distinguished by an especial number, unalterable so long as she is in existence, and independent of the other particulars enumerated on her certificate of registry, or other papers, such as port of registry, &c. &c.,—if an arrangement can be effected by which this number shall be represented by certain flags or symbols, the exhibition of it (the number), whether by writing or by signal, will always serve to identify the vessel, provided reference can be had to a correct book or list, in which such number and signal is entered opposite to the ship's name, accompanied by the particulars of the country, port, tonnage, &c.

By this means, wherever a ship might be met with, whether on the ocean or elsewhere, she would be individually known; and the consequence would be that more frequent and correct reports of the whereabouts of vessels and of their condition would be obtained,—for not only will the identity be correctly established, but the means of telegraphing increased, and the expense of transmitting intelligence reduced, by the abbreviation of the message.

Useful and necessary, therefore, as this regulation will become for official purposes, its value is most apparent in connection with commercial intercourse, and the superior facilities which it will afford for promoting the interests of trade and navigation.

Under these circumstances, it may be anticipated that the publication of a manual containing correct lists of vessels, with means of identifying them, and other particulars necessary for the information of the shipping interest, at such a price as shall render it generally available, will not only be acceptable to the large and influential class of persons concerned, but, when its utility is tested, it will probably in a short time obtain such a circulation as will repay the sum necessary to launch a book of so peculiar and elaborate a character; and that it will tend, in connexion with the proposed Signal Book, to realise the hope of effecting an international communication between maritime states.

But even if this anticipation of obtaining a large circulation is not realised, I submit that it is desirable and expedient for the Board of Trade, in furtherance of the laws which are producing such beneficial results in our mercantile marine, to establish and maintain an official organ which shall authorise and make known the regulations that become necessary to be

promulgated from time to time, in order to explain those laws; and also to obviate the plea of ignorance which the want of such an organ often suggests; by offering to the public a manual, by reference to which all persons may secure the advantages I have enumerated, and ascertain their position with respect to existing regulations, so as to avoid incurring penalties. I have, &c.

(Signed)

J. H. BROWN, Registrar.

T. H. FARRER, Esq.,
&c. &c. &c.

METEOROLOGICAL DEPARTMENT, BOARD OF TRADE.

SUMMARY STATEMENT OF THE MEASURES TAKEN BY H. M. GOVERNMENT FOR PROMOTING OBSERVATION AND SYSTEMATIC RECORD OF METEOROLOGICAL FACTS AT SEA.

THE importance of accumulating observations of wind, weather, climate, currents, temperature and density of water, with other kindred matters, usually included under the term Meteorology—having been urged by the Royal Society, and fully admitted by Government—a meteorological department was established, under the Board of Trade, in 1854.

To secure methodical reduction and tabulation of such observations, in order that the philosopher might use them with confidence and facility, and the navigator acquire practical information without delay, much consideration was given to the system adopted, which is, briefly, the following:

The surface of the globe is supposed to be divided into Squares, which are numbered and lettered, on maps, for reference—numbers showing the principal squares, and letters their subdivisions. These divisions serve for grouping observations; and the respective centres of areas serve as points of particular reference for "means" or averages.

Folio books, agreeing with each other in tabular arrangement, are numbered to correspond with the squares, and are so methodised that every individual entry made from any register of uncorrected observations is duly reduced, and then recorded in its appropriate Table, so that it may be used singly or otherwise, and identified, or traced, at any future time.

If averages, or means, be required, of course these data are equally available; but the general principles of operation have been to let nothing be lost or confused, nothing be vitiated, and no doubt exist as to the authority for any fact.

There are, at present, in use about sixty collecting books, of tabular forms (data books), distributed and headed for the following subjects:—Barometer, Thermometer, Hydrometer, Winds, Weather, Currents, Variation, Soundings, Crossings, Passages, Storms, Ice, Shooting Stars and Meteors, Aurora, and Electricity.

Entries are made in the tabular forms, as the logs, journals, or meteorological registers are successively examined, some data being extracted, reduced, and recorded by one person—some by another.

Remarkable passages in these documents, of immediate interest, are noted for periodical publication.

To the present time not less than 670 months of good meteorological logs have been received from 90 selected ships in the mercantile navy.

About a third of these registers have been discussed and tabulated. Before they were received a set of twelve wind charts, for the principal oceans, was compiled and published.

There are now more than 180 merchant ships supplied by Government with tested and reliable instruments, besides charts and books.

The character of these ships and their Captains may be inferred from the subjoined lists of those from which logs or registers, have been already received.

According to these lists, the following distinguishing marks are authorised in the Mercantile Navy List by the President of the Board of Trade, namely:—

To those names included in the First List, the letter A may be affixed; to those in the Second, B; Third, C; and Fourth, D.

In future years the same names may be further distinguished by numbers or additional letters—2 A, C D, &c.

Five Captains* having sent in meteorological registers superior to others, the further honorary reward of a valuable Telescope will be presented to each of those gentlemen, by order of the President of the Board of Trade.

OFFICE OF COMMITTEE OF PRIVY COUNCIL FOR TRADE,
Marine Department, September, 1854.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to invite the attention of the

to the accompanying Report of the Conference which, on the suggestion of Lieutenant Maury, of the United States Navy, was held at Brussels, on the subject of establishing a uniform System of Meteorological Observations at Sea, and concurring in a general plan of observations on the winds and currents of the Ocean, with a view to the acquirement of a more correct knowledge of the laws which govern the motion of those elements, and to the improvement of Navigation.

In consequence of the suggestions contained in that Report, Her Majesty's Government has submitted, and Parliament has sanctioned, a Vote for Instruments, and for the Tabulation of Logs, and other Meteorological Records; and Captain FitzRoy, of the Royal Navy, has been appointed to assist this Board in the discussion of the observations.

The object of the arrangements will be to attain, if possible, to such an improved knowledge of the currents of the ocean, and of the direction of the prevailing winds, as may materially diminish the risk and labour of navigation, and shorten the duration of voyages.

As an acknowledgment for the pains and attention of such Masters of Foreign-going Ships as are willing to co-operate with Her Majesty's Government in this undertaking, and as are competent to fulfil the conditions required of them, it is proposed to place a distinguishing mark against their names in the Mercantile Navy List, and to give copies of the Charts and Books which will be printed from time to time from their own and their brother officers' observations during the time they continue to contribute. These Books and Charts will contain information as to the prevailing winds and currents in the part of the Ocean of which they treat, and of the most desirable tracks to follow, in order to make the surest and quickest passages, and how to avoid or mitigate the violence of hurricanes, &c.

And further, to such Masters as will undertake to fill up the Columns of the Abstract Logs headed in black, and to make observations at the hours denoted by the black figures for their successive voyages, the United States Government have directed to be furnished gratis a set of Charts and Sailing Directions of Lieut. Maury, of the United States Navy, for the part of the Ocean they are navigating.

In order to facilitate the desired cooperation, standard instruments have been prepared, and may be obtained at a diminished cost, for the use of the Merchant Navy.

My Lords are in hopes that the object of this undertaking and the inducements held out to those who are willing to cooperate in it, will be considered by the more wealthy Shipping Companies, and private Shipowners, of sufficient importance to induce them to encourage the officers in command of their ships to undertake these observations, and to furnish some, at least, of their Masters with the requisite Instruments; but in other cases, in order to render the experiment as extensive as possible, Instruments will be furnished by the Marine Department of this Board, to Masters desiring to have them, and giving sufficient proof of their attainments. The extent to which their Lordships may be able to do this will however be limited to the means placed by Parliament at their Lordships' disposal, and my Lords are not prepared to pledge themselves to continue it in future years.

I am to add that it is very desirable that any Masters of Foreign-going Ships who may be willing to avail themselves of the privileges mentioned above, should communicate with

* Boyd, Quirk, Toynbee, Trivett, Wood.

as little delay as possible with this Department, either directly, or through the Agent appointed for this purpose at the Outports.

I am, Sir, your obedient Servant,
JAMES BOOTH.

LIST OF METEOROLOGICAL AGENTS AT THE FOLLOWING PORTS:

LONDON—Mr. E. Hughes, Railway Station, Blackwall.
LIVERPOOL—Mr. J. Hartnup, Observatory.
BRISTOL—Mr. T. M. Hyde, 1, Broad Quay.
PLYMOUTH—Capt. W. Walker, R.N., Local Marine Board.
BELFAST—Mr. F. M. Moore, 114, High Street.
GLASGOW—Capt. A. Small, Local Marine Board.
LEITH—Mr. J. Davidson, Local Marine Board.
HULL—Mr. Z. Scapington, Trinity House.
GREENOCK—Mr. J. Gardner.
SOUTHAMPTON—Mr. J. R. Stebbing, 47, High Street.
ABERDEEN—Mr. P. Robertson, 7, Hantley Street.
DUNDEE—Mr. P. A. Feathers, 26, Dock Street.
CORK—Commander J. Stuart, R.N., Local Marine Board.
DUBLIN—Commander R. Maclean, R.N., Local Marine Board.

METEOROLOGICAL AGENCY,

SIR,—In accordance with Instructions from the Board of Trade, I am to acquaint you that a set of the undermentioned Instruments, or any less number of them, may be lent, or sold, to you, on the following conditions:—

If lent, they are to be carefully used, and restored in as good condition as may be practicable, to an Agent of the Board of Trade, at the return of your Ship to a Port in Great Britain: unless, after communication with such Agent, and after his comparisons, you should be duly authorised to retain them.

Enclosed, are letters, which you will have the goodness to sign, and return to me, upon receiving Instruments, Registers, Charts, or Books, from the Board of Trade.

I am, Sir, your obedient Servant,

Agent.

Captain

Ship

LIST OF PRICES (Being the Cost Price, average expense of Carriage, and charge for verification).

	£	s.	d.
Marine Barometer . . .	3	10	0
Thermometer . . .	0	7	0
Thermometer Stand, or Screen. . .	0	10	0
Hydrometer (Glass) . . .	0	5	0
Azimuth Compass . . .	6	10	0

One Set of Instruments consists of

1 Marine Barometer. | 1 Thermometer Stand, or Screen.
6 Thermometers. | 4 Hydrometers (Glass).
1 Azimuth Compass.

CONDITIONS.

To entitle the Navigator to copies of such Sheets of Maury's Charts, as relate to his intended voyage, and to a copy of Maury's Sailing Directions (all of which have been liberally supplied by the United States' government); and to copies of such Board of Trade publications, as may be available and suited to his objects, he should be able to show that he is prepared to make the observations required of him, and is provided with necessary Instruments, which should be (at least) a good Compass, Sextant, and Chronometer, a Mercurial Barometer, and three Thermometers.

The Navigator who receives a copy of such Charts and Directions is expected to give his assistance by keeping an Abstract of his Log, not only for the Voyage then intended, but for subsequent Voyages.

And a Navigator who fails to comply with the conditions,
z 2

namely, to keep abstracts of his voyages, in the prescribed form, and, on his return to his own Country, to transmit them to the person appointed to receive them (the List of Agents will give the information), will forfeit his claim to future publications, as well as to the loan of Instruments.

Above 1000	"	.	3 0 0	Above 1000	"	.	3 0 0

And so on for Ships of larger tonnage, adding for every 100 tons above 1000, 5s.

And so on for Ships of larger tonnage, adding for every 100 tons above 1000, 5s.

FEES ON ENGAGEMENT OF SEAMEN SEPARATELY, 2s. for each.

FEES ON DISCHARGE OF SEAMEN SEPARATELY, 2s. for each.

* In cases in which the registered tonnage of Ships corresponds exactly with any of the numbers in the above Tables, the lower Fee will be taken. Thus, if a Ship is exactly 60 tons, 4s. will be taken; if exactly 100 tons, 7s.; and so on. But if a Ship's tonnage exceeds any one of these numbers, by ever so small a quantity, the higher Fee will be demanded.

SUMS TO BE DEDUCTED FROM WAGES BY WAY OF PARTIAL REPAYMENT OF THE FEES ON ENGAGEMENTS AND DISCHARGES.

1. In respect of Engagements and Discharges of Crews, upon each engagement and each discharge :—	s. d.
From wages of any mate, purser, engineer, surgeon, carpenter, or steward of any ship	1 6
All others (except apprentices) belonging to any ship	1 0
2. In respect of engagements and discharges of seamen separately, upon each engagement and each discharge :—	
From wages of each seaman	1 0

If the aggregate sum deducted from the wages exceeds the Fee payable by the Owner or Master, the latter is to pay the excess in addition to the Fee.

In cases of wreck or abandonment of voyage, no Fees will be charged for discharge, and no deductions made from the wages of the crew.

The Tonnage Fees in respect of any one Ship are not to be paid more than twice for engagements and twice for discharges of crews in one year.

FEES ON EXAMINATION OF MASTERS AND MATES FOR CERTIFICATES.

<i>For Foreign-going Ships.</i>	£	s.	d.

BOARD OF TRADE, May, 1855.

NOTICE TO ALL CAPTAINS AND COMMANDING OFFICERS OF BRITISH VESSELS

RESPECTING

REGISTRY OF BIRTHS AND DEATHS AT SEA.

The Registrar General of Births, Deaths, and Marriages in England hereby directs the attention of all Captains or Commanding Officers of British Vessels, to the following Provisions of the Act of the 6th and 7th of William IV., cap. 86, entitled "*An Act for Registering Births, Deaths, and Marriages in England*," namely :—

In the 21st Section it is enacted, "That if any child of an English parent shall be born at sea, on board of a British vessel, the Captain or Commanding Officer of the vessel on board of which the said child shall have been born, shall forthwith make a minute of the several particulars hereinafter required to be inserted in the Register, touching the birth of such child, so far as the same may be known, and the name of the vessel wherein the birth took place, and shall on the arrival of the vessel in any port of the United Kingdom,

or by any other sooner opportunity, send a certificate of the said minute, through the Post-office, to the Registrar-General."

In the 26th Section of the same Act it is enacted, "That if any of His Majesty's English subjects shall die at sea, on board of a British vessel, the Captain or Commanding Officer of the vessel on board of which such death shall have happened shall forthwith make a minute of the several particulars hereinbefore required to be inserted in the Register,

touching such death, so far as the same may be known, and the name of the vessel wherein the death took place, and shall, on the arrival of such vessel in any port of the United Kingdom, or by any other sooner opportunity, send a certificate of the said minute, through the Post-office, to the Registrar-General."

The following are the Schedules containing the particulars required to be inserted in the Register, so far as the same may be known:—

185 .—BIRTH of a Child at Sea, on Board of [here name the Vessel].

When Born.	Name, if any.	Sex.	Name and Surname of Father.	Name and Maiden Surname of Mother.	Rank or Profession of Father.	Signature of Master of the Ship.

185 .—DEATH at Sea, on Board of [here name the Vessel].

When Died.	Name and Surname.	Sex.	Age.	Rank or Profession.	Cause of Death.	Signature of Master of the Ship.

The minute should be made in the Ship's Log, and a copy of the minute certified in the following manner, or to the like effect, must be sent through the Post-office, by the first opportunity, addressed to the Registrar-General of Births, Deaths, and Marriages, *General Register Office, Somerset House, London.*

"I hereby certify that this is a true copy of the minute made in the Log of on the day of 18

"Witness my hand this day of 18

(SIGNED)

"*Captain (or Commanding Officer) of*
[Here state the name of the vessel]

Note.—The word "English," includes only natives of England and Wales. The word "British," includes vessels belonging to all parts of the British Empire.

NOTICE TO SHIP-OWNERS, SHIP MASTERS AND SEAMEN.

ACCOMMODATION FOR SEAMEN ON BOARD MERCHANT SHIPS.

Attention is called to the following provision of the Merchant Shipping Act, 1854, sect. 231.

The following Rules shall be observed with respect to accommodation on board (that is to say):—

1. Every place in any ship occupied by seamen or apprentices, and appropriated to their use, shall have for every such seaman or apprentice, if they sleep in hammocks, a space of not less than 9 superficial feet, and if they do not sleep in hammocks, a space of not less than 12 superficial feet, measured on the deck or floor of such place.
2. Every such place shall either be 6 feet in height from deck to deck, or shall have for every seaman and apprentice, if they sleep in hammocks, a space of not less than 54 cubic feet, and if they do not sleep in hammocks, a space of not less than 72 cubic feet.
3. Every such place shall be kept free from stores or goods of any kind, not being the personal property of the crew, in use during the voyage.
4. Every such place shall be properly caulked, and in all other respects securely and properly constructed and well ventilated.

And if any such place in any ship is not in the whole sufficiently large to give such space for each seaman and apprentice as hereinbefore required, or is not properly caulked, and in all other respects securely and properly constructed, and well ventilated, the owner shall for every such failure to comply with the provisions of this section incur a penalty not exceeding £20; and if any such space as aforesaid is not kept free from goods and stores as aforesaid, the Master shall for every such failure to comply with the provisions of this section incur a penalty not exceeding £10.

BOARD OF TRADE, *Marine Department, July, 1855.*

NOTICE TO SHIP MASTERS, AS TO THEIR DUTY WITH RESPECT TO BRITISH CONSULS IN FOREIGN PORTS.

It having been reported that some Masters are in the habit of sailing from Foreign ports at which they have touched, without reporting their vessels to the Consuls, in accordance with the provisions of the Merchant Shipping Act, 1854, in this respect. The Board of Trade, before proceeding to enforce the penalties prescribed in such cases, desire to draw the attention of Masters of vessels to the following requirements of the statute:—

"Whenever any ship, in whatever part of Her Majesty's dominions the same is registered (except ships whose business for the time being is to carry passengers), arrives at any Foreign port where there is a British Consular Officer, or at any port in any British possession abroad, and remains thereat for forty-eight hours, the Master must, within forty-eight hours of the ship's arrival, deliver to such Consular Officer, or to the Chief Officer of Customs (as the case may be) the agreement with the crew, and also all indentures and assignments of apprenticeships, or in the case of a ship belonging to a British possession, such of the said documents as such ship is provided with.

"Such Officer will keep such documents during the ship's stay in such port, and in cases where any indorsements upon the agreement are required by the Act will duly make the same, and will return the said documents to the Master a reasonable time before his departure, with a certificate endorsed on the agreement, stating when the same were respectively delivered and returned.

"And if any Master fails to deliver any such documents as aforesaid, he will for every such default incur a penalty not exceeding £20; and in any prosecution for such penalty, it will lie upon the Master either to produce the certificate of the Consular Officer or Officer of Customs hereinbefore required, or to prove that he duly obtained the same, or that it was impracticable for him so to do.

"If the Master of any British ship discharges any seaman or apprentice in any place situate in any British possession abroad (except the possession in which he was shipped) without previously obtaining the sanction in writing indorsed on the agreement, of some public Shipping Master or other Officer duly appointed by the local government in that behalf, or (in the absence of any such functionary) of the Chief Officer of Customs, resident at or near the place where the discharge takes place; or,

"Discharges any seaman or apprentice at any place out of Her Majesty's dominions, without previously obtaining the sanction so indorsed as aforesaid of the British Consular Officer there, or (in his absence) of two respectable Merchants resident there; or

"Leaves behind any seaman or apprentice at any place situate in any British possession abroad on any ground whatever, without previously obtaining a certificate in writing so indorsed as aforesaid from such Officer or Person as aforesaid, stating the fact, and the cause thereof, whether such cause be unfitness or inability to proceed to Sea, or desertion, or disappearance; or

"Leaves behind any seaman or apprentice at any place out of Her Majesty's dominions, on shore or at sea, on any ground whatever without previously obtaining the certificate indorsed in manner and to the effect last aforesaid of the British Consular Officer there, or (in his absence) of two respectable Merchants, if there is any such at or near the place where the ship then is;

"He will, for each default, be deemed guilty of a misdemeanor."

BOARD OF TRADE, *August, 1855.*

NOTICE.—WRECKED PROPERTY.

TO FISHERMEN, BOATMEN, AND OTHER PERSONS WHO MAY FIND WRECKED PROPERTY.

Attention is called to the following provisions in the Merchant Shipping Act, 1854:—

All cargo and other articles, belonging to any ship or boat which is stranded or in distress at any place on the shore of the sea, or of any tidal water within the limits of the United Kingdom, that may be washed on shore, or otherwise be lost or taken from such ship or boat, must be delivered to the Receiver; and any person, whether he is the owner or not, who secretes or keeps possession of any such cargo or article, or refuses to deliver the same to the Receiver, or to any person authorised by him to demand the same, will incur a penalty not exceeding £100; and it is lawful for such Receiver or other person as aforesaid to take such cargo or article by force from the person so refusing to deliver the same.

The following rules shall be observed by any person finding or taking possession of wreck within the United Kingdom; that is to say:—

- (1.) If the person so finding or taking possession of the same is the owner, he shall as soon as possible give notice to the Receiver of the district within which such wreck is found, stating that he has so found or taken possession of the same; and he shall describe in such notice the marks by which such wreck is distinguished.
- (2.) If any person not being the owner finds or takes possession of any wreck, he shall as soon as possible deliver the same to such Receiver, as aforesaid;

And any person making default in obeying the provisions of this section shall incur the following penalties; that is to say:—

- (3.) If he is the owner and makes default in performing

the several things the performance of which is hereby imposed on an owner,

He shall incur a penalty not exceeding £100.

- (4.) If he is not the owner and makes default in performing the several things the performance of which is hereby imposed on any person not being an owner,

He shall forfeit all claim to salvage;

He shall pay to the owner of such wreck, if the same is claimed, but if the same is unclaimed then to the person entitled to such unclaimed wreck, double the value of such wreck (such value to be recovered in the same way as a penalty of like amount); and

He shall incur a penalty not exceeding £100.

The name and address of the Receiver, if not known, may be learnt from any Officer of Customs.

BOARD OF TRADE, *September, 1855.*

INSTRUCTIONS IN RESPECT OF WRECKS AND CASUALTIES.

SAVING LIFE FROM SHIPWRECK.

The control of the Mortar and Rocket Apparatus for saving life having been transferred to the Board of Trade, the Inspecting Commanders of Coast Guard are henceforth to communicate directly with that Department concerning all matters relating to the saving of life from shipwreck, or to the supply of stores necessary for the Mortar and Rocket Apparatus.

The Board of Trade wish the Mortar and Rocket Apparatus to be rendered and kept as efficient as possible, and with this object, request that at the various stations where there is such an Apparatus, the Inspecting Commander of the District will, on receipt of this Circular, cause the same to be carefully and thoroughly inspected, the life lines, &c. to be tested, and a full report for each Apparatus, on a separate Form Wr. 23., transmitted to the Board of Trade with as little delay as possible. Any new stores required are to be procured as directed in paragraph 166. The Form Wr. 23. can be obtained on application to any Shipping Master.

The Board of Trade hold the Inspecting Commander responsible for the efficiency or otherwise of the Mortar and Rocket apparatus in his district; and they require a report on the condition of the Apparatus, to be made annually on Form Wr. 23., on the 30th June. The Board will, on all occasions, be glad to receive any observations and consider any suggestions that will in the opinion of Inspecting Commanders assist in the attainment of the object in view, viz., the Saving of Life from Shipwreck.

When an Inspecting Commander of a District thinks it desirable that a Mortar or Rocket Apparatus should be supplied to a Station at which none has been supplied before, he should write to the Board of Trade to that effect. In his application he should state his reasons for demanding the Apparatus, and why, if it is necessary, it has not been applied for sooner; the number of wrecks that have happened near the spot during the preceding five years; the nature of the coast, whether bounded by rugged cliffs or by a sloping bank; and whether in his opinion a Mortar or a Rocket Apparatus would be better adapted to meet the requirements of the locality. The application will then be taken into the consideration of the Board, and the Inspecting Commander will be advised of the result.

Should the Board determine on supplying the Apparatus, the following course is to be pursued:

- (a.) The Inspecting Commander will be requested to make a demand by filling in the division marked (A.) on Form Wr. 24., and transmitting it to the Board of Trade.
- (b.) On receipt of this demand the Board of Trade will examine it, and if found correct will send the Form

Wr. 24. to Mr. Dennett, Captain Manby, &c., as the case may be, with a request (in division B.) that the Apparatus may be supplied, and forwarded to a port named by the Inspecting Commander.

- (c.) The person supplying the Apparatus will advise the Inspecting Commander when it is about to be forwarded, and will receive his directions as to its transmission. When it is transmitted it will be accompanied by an inventory, and by the Form Wr. 24. (with division C. properly filled in).
- (d.) When the Inspecting Commander receives the stores and the papers named above, he will cause the inventory to be read over; and on ascertaining that the stores received correspond with the description given in the inventory, he will fill in the certificate marked (D.) in the form Wr. 24., and transmit that form, and the inventory, to the Board of Trade, when if found correct directions will be given for immediate payment.

In cases in which a complete Apparatus has already been supplied, and fresh stores are required to replace such parts thereof as are expended, worn out, or rendered useless, the Inspecting Commander of the Coast Guard may purchase them on the spot without first referring to the Board of Trade. In such cases when the goods have been supplied, he is to forward the accounts to the Board of Trade, with a certificate according to the following form, when directions will be given for payment of the amount:

"I hereby certify that the above stores have been received by me; that I have caused them to be thoroughly examined, and have found them to be of the best quality and workmanship throughout; that they are adapted to the requirements of the apparatus at the _____ station; and that the prices charged are fair and reasonable.

Inspecting Commander."

This arrangement does not apply in the case of Rockets, Quill Tubes, Rocket Frames, Stands, Poles, and Cartouches, which must be demanded by the Inspecting Commander on Form Wr. 24., as directed for a complete Apparatus in paragraph 165. above.

When expense has been incurred for labour or cart-hire in transporting the Mortar or Rocket Apparatus to the assistance of a ship in distress, the bill for the same is to be sent to the Inspecting Commander of the Coast Guard, or, where there is no Coast Guard, to the Collector of Customs; and the claimant is to be directed to apply at the Custom House for payment at the expiration of such a time as is sufficient to admit of the account being sent to, and again received from the Board of Trade. The Inspecting Commander or Collector of Customs, after having certified thereon that the service performed was necessary, and the amount charged reasonable, will forward the bill to the Board of Trade for approval. It will if approved be returned to the Collector of Customs, with directions for payment.

SALVAGE.

In cases in which it is the Receiver's duty to deliver property to owners on security by bond, for payment of Salvage, Customs Duty, Fees and Expenses, as mentioned in paragraph 53. of the Instructions, he may in lieu of such bond, when the Owners wish it, take the security in the form of a Deposit in Cash.

In determining the amount to be deposited, the Receiver must be guided by the same rules as in determining the amount for which a bond on Form Wr. 6. would be given in accordance with paragraph 53. of the Instructions.

Money received on account of such deposits is to be brought into the Form Wr. 10. as receipts on account of "*Deposits for Salvage, &c.*," and its disposal is to be duly accounted for.

FEES, EXPENSES, AND REMUNERATION.

When Officers and Men in the Coast Guard Service are employed in watching or protecting property, and make a

claim for remuneration under paragraphs 79. and 123. of the Instructions it must be made in duplicate on form Wr. 15. a. Applications for such remuneration will not be entertained if made on any other form. A supply of the form Wr. 15. a can be obtained of any Shipping Master.

In cases in which Receivers detain vessels for payment of Salvage services, but do not render any assistance to the master and crew when in distress, the day fees authorised by the last clause of Table V. in the schedule to the Act are to be charged: the £1. or 10s. per diem, as the case may be, is, however, not to be charged for every day *during which the vessel is in the Receiver's custody*, but only for such day or days as he is *actually employed on service in connexion with the vessel*.

T. H. FARRER,

Assistant-Secretary, Marine Department.

DIRECTIONS TO MASTERS AND CREWS OF SHIPS IN CASES OF WRECK.

In the event of your vessel stranding within a short distance of the United Kingdom, and the lives of the crew being placed in danger, assistance will, if possible, be rendered from the shore in the following manner; namely,

1. A rocket or shot with a thin line attached will be fired across your vessel. Get hold of this line as soon as you can, and when you have secured it let one of the crew be separated from the rest, and, if in the daytime, wave his hat or his hand, or a flag or handkerchief; or if at night let a rocket, a blue light, or a gun be fired, or let a light be displayed over the side of the ship, and be again concealed, as a signal to those on shore:

2. When you see one of the men on shore, separated from the rest, wave a red flag, or (if at night) show a red light and then conceal it, you are to haul upon the rocket line until you get a tailed block with an endless fall rove through it:

3. Make the tail of the block fast to the mast about 15 feet above the deck, or if your masts are gone, to the *highest secure* part of the vessel, and when the tail block is made fast let one of the crew, separated from the rest, make the signal required by article 1 above:

4. As soon as the signal is seen on shore a hawser will be bent to the whip line, and will be hauled off to the ship by those on shore:

5. When the hawser is got on board, the crew should at once make it fast to the same part of the ship as the tailed block is made fast to, only about 18 inches higher, taking care that there are no turns of the whip line round the hawser:

6. When the hawser has been made fast on board, the signal directed by article 1 above is to be repeated:

7. The men on shore will then pull the hawser taut, and by means of the whip line will haul off to the ship a sling, cot, or life buoy, into which the person to be hauled ashore is to get and be made fast. When he is in and secure, one of the crew must be separated from the rest and again signal to the shore as directed in article 1 above. The people on shore will then haul the person in the sling to the shore, and when he has landed will haul back the empty sling to the ship for others. This operation will be repeated until all persons are hauled ashore from the shipwrecked vessel.

8. It may sometimes happen that the state of the weather and the condition of the ship will not admit of a hawser being set up, in which case a sling or life buoy will be hauled off instead, and the persons to be rescued will be hauled through the surf instead of along the hawser.

Masters and crews of shipwrecked vessels should bear in mind that the success in landing them may in a great measure depend upon their coolness, and attention to the rules here laid down; and that by attending to them many lives are annually saved by the Mortar and Rocket Apparatus on the coasts of the United Kingdom.

The system of signalling must be strictly adhered to ; and all women, children, passengers, and helpless persons should be landed before the crew of the ship.

T. H. FARRER,
Assistant Secretary, Marine Department.

BOARD OF TRADE, 28th February, 1857.

NOTICE.—OFFICIAL LOG BOOKS.

It having been represented to the Board of Trade, that, in many instances, Official Log Books required to be kept by the Masters of vessels, under the provisions of the Merchant Shipping Act, 1854, are delivered up to the Shipping Masters, at the termination of the voyages, in a very imperfect state, and that some of the entries required by the Act to be inserted therein are altogether omitted; the particular attention of Masters of vessels and others is directed to the requirements of the abovementioned Act, in this respect, and to the penalties to which they will render themselves liable by neglecting to comply therewith.

No Forfeitures or Stoppages of Wages will be allowed unless entries of the causes justifying the deductions are made in the Official Log Books.

The clauses of the Act having reference to the entries, penalties, &c., will be found printed in pages 2 and 3 of the Official Log Books.

BOARD OF TRADE, October, 1855.

NOTICE TO OWNERS AND MASTERS OF STEAM VESSELS.

MERCHANT SHIPPING ACT, 1854.

Whereas it is provided by the Merchant Shipping Act, 1854, that ships proceeding to sea from any place in the United Kingdom shall be provided with boats as therein mentioned: And whereas it is also thereby provided that such boats shall be kept so as to be at all times ready for use: And whereas in the case of Passenger Steamers the said Boats and their equipments are periodically inspected by surveyors appointed by the Board of Trade: And whereas it has been brought to the notice of the Board of Trade that in the intervals between such inspections the plugs and the thole pins of the said boats not being attached by lanyards are frequently lost or mislaid, and that no supply of spare plugs and thole pins is kept in the boats, and that the other equipments of the said boats are frequently removed, by reason whereof the said boats are not kept fit and ready for use as required by the said Act: And whereas by the said Act it is further provided that "if any ship hereinbefore required to be provided with boats proceeds to sea without being so provided therewith, or if any such boats are lost or rendered unfit for service in the course of the voyage through the wilful fault or negligence of the Owner or Master, or if in case any of such boats being accidentally lost or injured in the course of the voyage the Master wilfully neglects to replace or repair the same on the first opportunity, or if such boats are not kept so as to be at all times fit and ready for use, then if the Owner appears to be in fault he shall incur a penalty not exceeding £100, and if the Master appears to be in fault he shall incur a penalty not exceeding £50."

Notice is hereby Given,

That if by reason of such neglect as aforesaid the boats of any Passenger Steam vessels are found not to be at all times fit and ready for use, steps will be taken to enforce the said penalties.

BOARD OF TRADE, September, 1856.

This Notice is to be kept posted up inside and outside the Shipping Offices and Custom Houses.

NOTICE

TO MASTERS OF PASSENGER STEAMERS.

Whereas on the investigation into the circumstances which attended the recent collision between the "Mail" and "Excelsior" steam ships in the river Mersey, it appeared in evidence that almost immediately before the accident, the "Mail" had been steaming at the rate of 10 or 11 miles an hour;

And whereas the Stipendiary Magistrate and the Naval Officer who conducted that enquiry, have stated in their report to the Board of Trade that the effect of the collision might have been less serious if that vessel had taken the precaution to reduce her speed on entering the Mersey;

And whereas the Board of Trade have power to cancel or suspend the certificate of any Master or Mate "when it is duly reported to them that the loss of any ship is owing to his wrongful act or default";

The attention of the Masters of Passenger Steamers is hereby called to the very serious responsibility which will rest upon them, if they allow their steamers to run at a high speed in waters frequented by shipping.

BOARD OF TRADE, 30th September, 1856.

THE BOARD OF TRADE

Being desirous of encouraging Seamen to save their earnings, and of preventing as far as possible the risk of their losing their money after being "paid off" from their ships, have established

SEAMEN'S SAVINGS BANKS

at the Shipping Offices at the principal ports (Kirkwall, Lerwick, and Stornoway excepted).

The following are a few of the advantages which Seamen will derive by depositing their money therein:—

- 1st. That the Seamen's money will always be safe, it being under the care of the Board of Trade.
- 2nd. That they can pay their deposits first at one port and then at another, just as it may suit their convenience.
- 3rd. That they can withdraw at any port they please the whole amount of their deposits, or can withdraw portions of their money first at one port and then at another.
- 4th. That the deposits, if allowed to remain in the Seamen's Savings Bank, will be increased by the interest of £3 per cent. per annum which the Board of Trade allow to depositors.
- 5th. That in the event of the Seaman dying without a will, any deposit or interest that may have belonged to him will be paid over to his nearest relation or legal representative.

Seamen are therefore recommended to take from the payable sufficient only for their immediate expenses, and deposit for safety the remainder of their wages in the Seamen's Savings Bank, where it will be increased by the interest which the Board of Trade allow.

When Seamen require to withdraw any of their money, all they will have to do will be to apply to the Shipping Masters at any of the ports (excepting those above named), when the whole, or a portion, of their money will be returned, free of expense, with any interest that may be due.

The Wives, Widows, and Children of Seamen are also allowed to open accounts in the Seamen's Savings Bank. Seamen are also allowed to deposit sums of money for their children, which the children can withdraw whenever required if they are above 14 years of age.

NOTICE.

As the Act of Parliament will not allow any person to have more than one account opened at a time in the Savings Banks in the United Kingdom, the depositor, on opening a new account, will be required to sign a declaration according to the

following form, and if the depositor makes a false declaration he or she will risk the loss of the whole of their money :—

"In pursuance of the Act 9 Geo. IV., c. 92, I, the undersigned, '*a Seaman*,' do hereby declare, That I am desirous, in my own behalf to make my *first* deposit in the Seamen's Savings Bank (established under the provisions of the Merchant Shipping Acts, 1854, 1855, and the Seamen's Savings Bank Act, 1856); and I further declare, that no account has been opened in the Seamen's Savings Bank in my name at this or any other port or ports in the United Kingdom, and that I am not entitled, directly or indirectly, to any deposit in or benefit from the funds of this or of any other savings bank in Great Britain or Ireland, nor to any other sum or sums standing in the name or names of any other person or persons in the books of the said savings bank above mentioned, except such sum or sums as may be standing in my name as trustee jointly with the name or names and on behalf of any other depositor or depositors, and except such benefit as I may be entitled to from being a member of a Friendly Society legally established.

"Witness my hand, this 1st day of October, 1856,
"James Adams."

MONEY ORDERS

are granted by the Shipping Masters at the principal ports to Seamen and Apprentices free of expense, for the purpose of enabling them to send a part of their wages to their friends or relations residing at any other port in the United Kingdom.

SAILORS' HOMES

are established at the following places for the exclusive benefit of Seamen, where, in addition to being provided with board and lodging at the lowest possible rate, they have the advantage of being able to attend the Libraries and Reading Rooms free of expense. In some of the Homes Schools have been established, which afford to Seamen who are desirous of rising in their profession the opportunity of qualifying themselves to become Mates or Masters of vessels.

There are Sailors' Homes in :—

BOARD OF TRADE, WHITEHALL, November, 1856.

CAUTION TO OWNERS AND MASTERS OF PASSENGER STEAM VESSELS.

MERCHANT SHIPPING ACT, 1854.

Whereas it was reported to the Board of Trade that the steamer "*Invincible*," of Glasgow, was plying with passengers without having on board a proper and valid certificate from that Board, to the effect "that the provisions of the Merchant

Shipping Act, 1854, with respect to the survey of that vessel and the transmission of declaration in respect thereof had been complied with," in accordance with the provisions of section 318 of the said Act :

And whereas by the said section the owner of the said vessel had rendered himself liable to a penalty of £100, and the Master of the said vessel had rendered himself liable to a penalty of £50, in allowing the said vessel to proceed on a voyage or excursion with passengers on board without having first received from the Board of Trade such valid certificate as aforesaid :

And whereas the Board of Trade thereupon caused proceedings to be instituted before the sheriff of the city of Glasgow, on the 21st October last, against John Barr, the owner, and Colin Gillies, the master of the said vessel, for recovery of the penalties aforesaid :

Now this is to give Notice,

That the said John Barr was convicted in the mitigated penalty of £50, and the said Colin Gillies in the mitigated penalty of £10.

BOARD OF TRADE, 6th November, 1856.

INSTRUCTIONS TO SURVEYORS OF STEAM VESSELS.

BOATS.

As an addition to Paragraph 69.

The 292nd section of the Merchant Shipping Act enacts that "no ship carrying more than ten passengers shall proceed to sea from any place in the United Kingdom unless, in addition to the Boats hereinbefore required, she is also provided with a Life Boat furnished with all requisites for use."

From this enactment it will be seen that the Life Boat is to be furnished with "all requisites for use," and as the Board of Trade have frequently of late had their attention directed to the lamentable loss of life, and to the serious evils resulting from the Life Boats on Passenger Steamers not being provided with efficient means of lowering them safely into the water, and not being kept in such a position on board as to be readily available in cases of emergency, the Shipwright Surveyors are directed to call the attention of Owners of Passenger Steam Ships to the subject, and to acquaint them that amongst the requisites for use there must henceforth be included efficient means for lowering the Life Boats into the water safely and expeditiously.

Surveyors are to refuse Declarations in future in cases in which the Life Boat is in such a position as not to be ready for use in an emergency, or in which efficient means are not provided for lowering it safely and expeditiously into the water.

It is left to Shipowners themselves to provide such methods as they please for lowering the Life Boat, so long as the intention of the Legislature is complied with.

SAFETY VALVES.

As an addition to Paragraph 147.

The attention of Engineer Surveyors is directed to the circumstances connected with the explosion of the Boiler on board the Royal West India Mail Steam Ship "Parana," at Southampton, on the 26th November last, a full report of which has appeared in the newspapers.

With a view to preventing the recurrence of similar accidents, it is desirable that in all Passenger Steam Ships the Safety Valve required by the Act of Parliament shall be provided, in addition to the ordinary Safety Valve, on the same Boiler; and although the Board of Trade have no power to enforce such a step, they request Engineer Surveyors to call the attention of Steam Ship Owners, Manufacturing Engineers and Boiler Makers, to the point.

T. H. FARRER,

Assistant-Secretary, Marine Department.

BOARD OF TRADE, 1st January, 1857.

NEGLECTING TO USE THE LEAD.

SUSPENSION OF MASTERS' CERTIFICATES.

OFFICE OF COMMITTEE OF PRIVY COUNCIL FOR TRADE,
Marine Department, Whitehall, Nov. 3, 1856.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to transmit to the committee for managing the affairs of Lloyd's, the enclosed copy of a letter, addressed by this Board to the Underwriters' Association, Liverpool, in November last, on the subject of the *culpability of Shipmasters in neglecting to use the lead*, and I am to request that they will give publicity to the two following instances of wreck, which have occurred within a recent period, and in which it has been reported, that the accidents were attributable in a great measure to the neglect of this precaution. My Lords have suspended or cancelled the certificates of the Masters of the vessels.

The first case is that of the "Zebra" screw steamer, which was lost near the Lizard Point, on the 22nd of July last. In reporting on this case, the Court, consisting of Mr. Mansfield, the stipendiary magistrate at Liverpool, and Capt. Schomburgk, Emigration officer at that port,—stated, that they considered the omission of the use of the lead a very grave one, and one of the main causes of the loss of the ship. My Lords, therefore, suspended the certificate of Mr. W. E. Betts, the Master, for twelve months.

The second case is that of the "Brunelle," stranded near Girvan, on the 14th of September. The Local Marine Board of Greenock conducted the inquiry, and reported that the Master, Mr. Alexander L. Black, was guilty of misconduct by neglect of duty, tending to the serious damage of the ship: one important element in such neglect being the omission to use the lead. My Lords, in this instance, cancelled Mr. Black's certificate of service, and sanctioned his going up for examination for a certificate of competency, after a lapse of three months, in accordance with the recommendation of the Local Marine Board.

My Lords trust that the steps taken in these cases will tend to impress on Shipmasters the necessity of a due observance of the simple and obvious precaution, which has been so much neglected.

I am, Sir, yours &c.,

JAMES BOOTH.

To the Secretary, Lloyd's.

. The letter to which reference is made, is again published in order to remind Captains of the consequences attached to the neglect of the use of the lead:—

November 20, 1855.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to acknowledge the receipt of your letter of the 9th instant, relative to the neglect of Shipmasters to use the lead, and stating that the Liverpool Underwriters' Association are of opinion that an important advantage would be gained, were this Board to issue a notice to Masters of vessels that such neglect would be considered as misconduct.

"In reply, I am to request you to inform the Underwriters' Association that my Lords have directed their serious attention to the many cases of shipwreck which have recently been investigated under the provisions of the Merchant Shipping Act, 1854, in most of which, as they conceive, the casualty might have been avoided had the simple and obvious precaution of taking soundings been observed.

"My Lords are impressed with a belief that from a desire to avoid trouble and delay, or for other reasons, the proper use of the lead, even in thick or foggy weather, or when upon a dangerous coast, has become so habitually neglected in many branches of the Merchant Service, that Masters appear no longer to look upon it as a necessary part of their duty.

"My Lords gladly take this opportunity of expressing their decided opinion, that such conduct cannot be justified by any custom or practice, however prevalent; and the fact that the neglect has become common, affords, in their Lordships' opinion, the strongest reason for taking every possible means to check it; and they believe that there would be great public benefit and little individual hardship, in visiting with the

severest penalties, persons who are found guilty of a fault so fatal in its consequences.

"My Lords have no doubt, from the terms of your letter, that the Underwriters' Association will concur with them in the views they take, and they are glad to have the opportunity of expressing those views, and of intimating, in as public a manner as possible, their intention to use all the means with which the law has intrusted them, to enforce the proper use of the lead on board merchant ships.

"I am, Sir, your obedient Servant,

"T. H. FARRER.

"The Secretary to the Underwriters' Association,
Liverpool."

INSTRUCTIONS TO SHIPPING MASTERS.

BOARD OF TRADE, 1st January, 1857.
Referring to Paragraphs 50 and 52.

In consequence of a representation made by the Local Marine Board of Liverpool, to the effect that forgeries of Certificates of Discharge and Character are much on the increase, and that this is, in a great measure, attributable to the facility with which, in the form (E 1), at some ports the blank Certificates can be procured, the Shipping Masters are requested, in future, to take particular care that no blank Certificates of Discharge and Character in the form (E 1) are issued under any circumstances; and to see that these Certificates are used only on the discharge of Crews at the Shipping Office, and in the presence of the Shipping Master.

T. H. FARRER,
Assistant-Secretary, Marine Department.

The following is a copy of the letter from the Liverpool Local Marine Board above referred to:—

LOCAL MARINE BOARD, SAILORS' HOME,
LIVERPOOL, 12th December, 1856.

SIR:—I am directed by the Local Marine Board of this Port to request that you will call the attention of the Lords of the Committee of Privy Council for Trade to forgeries of Certificates of Discharge and Character, which the Local Board apprehend are greatly on the increase.

They have been informed, and believe, that forged Certificates in the form E 1 are now being sold in Liverpool, but as they generally bear the forged signature of a Shipping Master of some Out-port the Local Board have failed to detect the parties presenting the same.

Enclosed are, however, two of these documents bearing the forged signatures of two of the Liverpool Deputy Shipping Masters, but the Local Board have also failed in their attempts to obtain the evidence to convict the parties forging or using the same.

The Local Board are of opinion that had the spirit of my Lords' instructions contained in your letter of the 19th of October, 1852, preparatory to the form E 1 being supplied, been carried out at other Ports with the same strictness as at this Port, the evil now complained of would not have existed. In no case has a blank form E 1 been allowed to be taken from the Liverpool Shipping Office till it is duly executed. The Local Board are, therefore, confident that not one of these blank forms have been supplied from Liverpool, and from the extensive transactions carried on at Liverpool, they are convinced that no practical difficulty can exist at any other Port to prevent the same precautionary measures being adopted.

Enclosed are a number of blank forms given by the Shipping Masters at Poplar, Southampton, and Dublin, to Masters of Ships clearing outward. The Local Board are not surprised, under the circumstances, of forms being distributed so profusely without check, that there is no more difficulty in procuring, for fraudulent purposes, the blank forms E 1 than had previously existed in obtaining the old form E, and thus the

object contemplated by my Lords in the before-named letter has been frustrated.—I am, &c.,

JOHN THOMAS TOWSON, Secretary.

BOARD OF TRADE, 1st January, 1857.

TO CHRONOMETER MAKERS.

The Board of Trade have directed an Apparatus to be fitted up in the General Register and Record Office of Seamen, Adelaide Place, London Bridge, for the purpose of testing Chronometers under different temperatures; and also for rating those instruments, for which purpose a communication by Electric Wire has been established with the Royal Observatory, Greenwich.

Chronometer Makers desirous of having their instruments tested will please to apply for particulars at the aforesaid Office, between the hours of 11 and 3.

RATING, TESTING, AND MANAGEMENT OF CHRONOMETERS.

The Board of Trade have directed an Apparatus to be fitted up in the General Register and Record Office of Seamen, Adelaide Place, London Bridge, for the purpose of testing Chronometers under different temperatures; and also for rating those instruments, for which purpose a communication by Electric Wire has been established with the Royal Observatory, Greenwich.

Captains of Vessels desirous of having their Chronometers tested will please to apply for particulars at the aforesaid Office, between the hours of 11 and 3.

It is particularly requested that Masters of vessels leaving their Chronometers at the Register Office, will attend to the following suggestions:—

All Chronometers, however good, are liable to alter their rate when moved from the shore to a ship. The rate given should therefore not be solely depended on, but every opportunity taken of testing it on the passage down Channel, either by time-balls that may be seen, or by sights taken when the latitude and longitude can be correctly ascertained by bearings of well known objects on shore. The error obtained by either of these methods (after the Chronometer has been five or six days on board) will show whether the rate given has materially altered.

The registry of alteration in the rate caused by change of temperature will be very useful,—especially to those leaving England in winter and getting quickly into the hot weather of the tropics. A small Thermometer should be kept with the Chronometer, and registered daily, a corresponding correction being applied to the rate.

The Chronometer should on no account be placed near a stove, but in the position least exposed to sudden changes of temperature. It should not be moved from its place during the voyage, neither should it be kept in a drawer or on a shelf attached to a bulk-head. The best plan is to have a block of wood about two feet high bolted to the deck of the cabin over a beam; on this a small open box, about two inches larger each way than the Chronometer, should be screwed, in which it is to be imbedded in sawdust. The box should be only deep enough to allow about an inch of sawdust under the Chronometer, which must open clear of the sides of the box, a plan of this may be seen at the Office.

If a Master requires an error for his Chronometer in a foreign port, either from parties on shore or from a ship of war, he should on no account remove the Chronometer from its fixed place, but get a comparison with a pocket watch.

CONSULAR FEES.

At the Court at Buckingham Palace, the 1st day of May, 1855,
Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS, by the fourth section of the Act of the sixth year of the reign of King George the Fourth, chapter eighty-

seven, intituled "An Act to regulate the payment of salaries and allowances to British Consuls at foreign ports, and the disbursements at such ports for certain public purposes," it is amongst other things enacted, "that it shall and may be lawful for all Consuls-General and Consuls appointed by his Majesty, and resident within the dominions of any sovereign or any foreign state or power in amity with his Majesty, to accept, take, and receive the several fees particularly mentioned in the tables to this said Act annexed, for and in respect or on account of the several matters and things and official acts and deeds particularly mentioned in the said schedules, and that it shall and may be lawful for his Majesty, by any Order or Orders to be by him made, by and with the advice of his Privy Council, from time to time, as occasion may require, to increase or diminish or wholly to abolish all or any of the fees aforesaid, and to establish and authorise the payment of any greater or smaller, or new or additional fees or fee, for or in respect of the several matters and things mentioned in the said schedules or any of them, or for or in respect of any other matters or things, or matter or thing, to be by any such Consul-General or Consul, done or performed in the execution of such his office."

And whereas, by an Order in Council made on the 14th day of April, 1851, it was ordered "that whenever a British Consul-General, Consul, or Vice-Consul should be called upon by masters of merchant ships to give his sanction in writing as to the shipment or discharge of seamen, or his certificate as to the desertion of seamen, it should be lawful for such Consul-General, Consul, or Vice-Consul, to demand, recover, and receive from all masters or chief officers, or commanders of any ship or vessel belonging to any of her Majesty's subjects, the sum of two shillings for each seaman whose shipment or discharge should have been so sanctioned, or whose desertion should have been so certified; and that it should not be lawful for such Consul-General, Consul, or Vice-Consul to levy a larger fee for this service:"

And whereas it is expedient to abolish the fees mentioned in the tables to the said Act annexed, and in the said Order in Council of the 14th of April, 1851, and to establish and authorise the payment of other fees in lieu thereof: Now, therefore, in pursuance of the said Act and in exercise of the powers in her Majesty in Council, in that behalf vested by the said Act, it is hereby ordered by her Majesty, by and with the advice of her Privy Council, that the several fees mentioned in the tables to the said Act annexed, and in the said Order in Council of the 14th of April, 1851, shall be abolished, and that the several fees mentioned in the table hereunto annexed, for the several matters mentioned therein, shall be substituted for the fees so abolished, and shall and may be taken accordingly, subject to the directions and restrictions contained in the notes appended to the said table.

And the right honourable the Earl of Clarendon, one of her Majesty's principal Secretaries of State, is to give the necessary directions herein accordingly.

WM. L. BATHURST.

TABLE OF FEES REFERRED TO BY THE FOREGOING ORDER.

PART I.

Fees to be taken in respect of matters in which the Consul's interposition is required by Law.

<i>Matter in respect of which the Fee is to be taken.</i>	<i>Fee.</i>
<i>£ s. d.</i>	
For every declaration made before the Consul, in forms B, C, F, G, H, and L, in the schedule to the Merchant Shipping Act, 1854, with a view to the registry, transfers, and transmission of ships, interests in ships, or mortgages on ships	0 5 0
For indorsing a memorandum of change of Master upon the certificate of registry.	0 2 0
For granting a provisional certificate of registry (this fee to be exclusive of fees on declarations)	0 10 0
For recording a mortgage of a ship, or shares in a ship, made under a certificate of mortgage	0 10 0
For recording the transfer of a mortgage of a ship,	

<i>Matter in respect of which the Fee is to be taken.</i>	<i>Fee.</i>
<i>£ s. d.</i>	
or shares in a ship, made under a certificate of mortgage	0 7 0
For recording the discharge of a mortgage of a ship, or shares in a ship, made under a certificate of mortgage	0 7 6
For every sale of a ship, or shares in a ship, made before the Consul under a certificate of sale	0 10 0
For inspection of the register book of transactions in ships	0 1 0
For every seaman engaged before the Consul	0 2 0
For every alteration in agreements with seamen made before the Consul	0 2 0
For every seaman discharged or left behind with the Consul's sanction	0 2 0
For every desertion certified by the Consul	0 2 0
For attesting a seaman's will	0 2 0
For examination of provisions or water, to be paid by the party who proves to be in default	0 10 0
For every salvage bond made in pursuance of 17 and 18 Victoria, chapter 104, section 488, to be paid by the master or owner of the property salvaged	2 0 0
On disbursements in respect of distressed seamen a commission of 2½ per cent.	

PART II.

Fees to be taken in respect of matters in which the Consul's interposition is to be given only when required by the parties interested.

Matter in respect of which the Fee is to be taken.

<i>£ s. d.</i>	
For noting a protest, with certified copy if required	0 5 0
For order of survey, with certified copy if required	0 5 0
For extending a protest or survey with certified copy if required	1 0 0
And, if it exceeds 200 words, for every additional 100 words	0 2
For preparing and attesting bottomry or arbitration bond	1 0 0
For attesting bottomry or arbitration bond not prepared by Consul	0 5 0
For attendance, out of Consular office, at a shipwreck, or for the purpose of assisting a ship in distress, or of saving wrecked goods or property, over and above travelling expenses, per diem	1 1 0
For attending valuation of goods, if under £200 in value	0 10 6
For attending valuation of goods, if £200 and upwards in value, for every day's attendance during which the valuation continues	1 1 0
For attending sale of goods if the purchase money is under £200	1 1 0
For attending sale of goods if the purchase money is £200 or upwards, for every day during which the sale continues	2 2 0
Certificate of due landing of goods exported from the United Kingdom	0 9 0
Bill of Health	0 10 0
Visé of Passport	0 2 0
Opening of will of a British subject, not being a seaman	1 1 0
Management of property of a British subject, not being a seaman, dying intestate, commission of 2½ per cent.	
Registration of documents or other matters	0 2 6
And, if exceeding 100 words, for every additional 100 words	0 0 6
For every certified copy of a document not before mentioned	0 2 6
And if it exceeds 100 words, for every additional 100 words	0 0 6
For administering an oath or declaration, including attestation of signature if required	0 2 0
For attesting a signature	0 2 0
For annexing the seal of office and signature to any document not mentioned in, or otherwise provided for by, this table	0 5 0

Note 1.—No fee is to be taken for the custody of, or indorse-

ment on, Ships' Articles and papers deposited with the Consul in pursuance of the Merchant Shipping Act, 1854, section 279.

Note 2.—Where any fee is fixed by the foregoing tables for any particular act or transaction, no additional fee is to be demanded for signature, attestation, or annexing seal of office.

Note 3.—The above fees, if not paid in English money, are to be calculated at the current rate of exchange.

NOTICE TO MASTERS AND MATES OF HOME TRADE PASSENGER SHIPS.

MEANING THEREBY,

SHIPS employed in carrying PASSENGERS within the following Limits; viz. the UNITED KINGDOM, the Islands of GUERNSEY, JERSEY, SARK, ALDERNEY, and MAN; and the Continent of EUROPE between the River ELBE and BREXET inclusive.

GENERAL CERTIFICATES OF COMPETENCY OR SERVICE.

After the 1st day of May next no Home Trade Passenger Ship will be allowed to clear out or obtain a Transire at any Port in the United Kingdom, unless the Master and Mate are in possession of a Certificate either of Competency or of Service; and these Certificates must be produced half-yearly with the Articles of the Ship to some Shipping Master. Ships of 100 tons burden and upwards must have a certificated Mate. Masters and Mates who go to sea without having the required Certificates, and Owners who knowingly employ them without such Certificates, are liable to a penalty not exceeding £50.

CERTIFICATES OF SERVICE will be granted to all Masters and Mates who have served as such in Home Trade Passenger Ships prior to the 1st day of January, 1854, and may be had after the 1st day of March next, on application to the Registrar-General of Seamen, Custom House, London, on sending in a Form of Claim, properly filled up, which may be had from any Shipping Master.

CERTIFICATES OF COMPETENCY will be granted by the Board of Trade to all such Masters and Mates as pass the examination for this particular service before one of the Local Marine Boards.

The Examinations before the Local Marine Boards will commence on the 1st day of March next, and all persons desirous of passing should apply to the Shipping Masters of the respective Ports.

A Certificate of Competency for a Foreign-going Ship is by the Act made equivalent to a Certificate of equal or lower grade for a Home Trade Passenger Ship, and entitles the holder to fill the situation of Master or Mate, as the case may be, in the latter description of Ship.

Certificates of Competency for Home Trade Passengers Ships will be of two kinds only; viz., for Masters and Mates respectively.

PILOTAGE CERTIFICATES.

After the 1st day of May next every Ship carrying Passengers between any place situate in the United Kingdom, or the Channel Islands, or the Isle of Man, and any other place so situate, must, during such times as she is navigating upon any waters for which Pilots are duly licensed according to Law, have a duly licensed Pilot on board, unless the Master or Mate possess a Pilotage Certificate of Service, or a Pilotage Certificate granted by some Pilotage Authority, or by the Board of Trade.

PILOTAGE CERTIFICATES OF SERVICE will be granted to all Masters who have satisfactorily piloted their own vessels for two complete years consecutively before the 1st day of May next.

In order to obtain these Certificates of Service application must be made to the Registrar-General of Seamen, Custom

House, London, upon a Form which may be obtained from any Shipping Master.

OTHER PILOTAGE CERTIFICATES are to be procured only after satisfactory examination before the legally constituted Pilotage Authority for the district for which the Pilotage Certificate is required, and all persons desirous of being examined for such a Pilotage Certificate for any particular Port or District should apply to the proper Pilotage Authority for that Port or District.

The earliest possible application should be made for Certificates of Service in order that no delay or inconvenience may be caused on and after the 1st day of May next, when the Act comes into operation.

BOARD OF TRADE, 1st February, 1855.

MEMORANDUM

CONCERNING PILOTAGE CERTIFICATES UNDER THE MERCHANT SHIPPING ACT, 1854.

BOARD OF TRADE, 7th May, 1855.

As some misconception appears to exist as to the nature and effect of Pilotage Certificates, issued by the Board of Trade, under the 355th Section of the Merchant Shipping Act, 1854, the following explanation is issued by direction of the Board of Trade.

By the 354th Section of the Act above referred to, Ships carrying Passengers between places situate in the United Kingdom and the Channel Islands are bound to take Pilots whether they have or have not been previously subjected to compulsory pilotage. The obligation thus imposed is a new obligation, and totally independent of local acts or regulations.

But as the above obligation has for its object to require that such Ships as aforesaid shall be navigated by persons acquainted with the local navigation, an exception is introduced in favour of those vessels in which the Masters or Mates possess certain Pilotage Certificates. These Pilotage Certificates are of two classes.

First. Certificates granted by Pilotage authorities, or by the Board of Trade, upon examination in pursuance of Sections 340 to 344.

Secondly. Certificates granted by the Board of Trade, under Section 355.

The respective effect of these two Classes of Certificate is very different. A Certificate of the former Class exempts not only from the new obligation imposed by Section 354, but also from all obligations to employ Pilots or to pay Pilotage imposed by Local Acts. A Certificate of the latter Class exempts only from the new obligation imposed by Section 354.

Any person, therefore, who obtains a Certificate of the former Class can obtain no additional exemption by a Certificate of the latter Class; nor will a Certificate of the latter Class prevent him from being liable to the payment of any Fees to Pilotage authorities lawfully demanded by them, under Local Acts or Regulations.

Where Pilotage authorities have heretofore been in the habit of granting Pilotage Certificates or Licenses, particular attention should be given to Sections 340 to 344 of the Act above referred to, so that their future practice may be in accordance with those Sections; and so that the Fees demanded by them may be submitted for the approval of the Board of Trade.

CHOLERA.

INSTRUCTIONS TO CAPTAINS OF SHIPS ISSUED BY THE GENERAL BOARD OF HEALTH.

Captains of Ships are hereby warned,—

I. WHAT TO AVOID.

OVERCROWDING.—The amount of breathing space for the men which may suffice in ordinary times is insufficient in an epidemic season. Increase space as much as practicable. Permit no sails, large trunks, or any part of the cargo to

occupy the fore-castle. If sufficient additional space cannot be otherwise obtained, erect a temporary tent on deck by awning, sails, &c., for the men at night, taking care that they sleep warm and dry. Ventilate the fore-castle and every part of the ship with fresh air as freely as possible. Pure air is the first essential requisite to safety.

DAMPNESS.—To lessen the danger from dampness let the boards be dry-rubbed. Let the men change their wet clothes whenever practicable, and never allow the wet clothes to remain below an instant. A thick flannel belt or bandage around the stomach or loins would be a great defence for sailors. Flannels or Guernsey frocks should be worn next the skin. Sudden and violent attacks of Cholera often follow a chill.

FILTH.—Let every part of the ship be kept as clean and sweet as possible, and enjoin personal cleanliness on the men. Vessels affected by bilge water should be pumped out frequently, especially steamers.

UNWHOLESOME FOOD.—Articles of food which may be taken with little inconvenience in ordinary times may be dangerous in an epidemic season. The best articles of food are meat, good biscuits, rice, oatmeal, and good potatoes. Solid food is better than fluids, and therefore at this time it would be desirable to give the crew beef and mutton instead of soup. Care should be taken to avoid all tainted meat and decayed vegetables. Special attention should be paid to having a supply of pure water. *All river water near towns should be avoided.*

EXCESS.—Great moderation both in food and drink is absolutely essential to safety. A single act of indiscretion has been followed by a severe attack; intemperance at such a time is fraught with extreme danger. An epidemic atmosphere commonly produces great depression, both of body and mind, and a desire for stimulants. If for the relief of this feeling recourse be had to gin or brandy, the result may be fatal.

PURGATIVE MEDICINES.—No purgative medicines of any kind should be taken at this season—unless under medical direction. Glauber's Salts and Epsom Salts are especially dangerous. Owners and Masters should provide themselves with the necessary medicines immediately.

II. WHAT TO DO.

Cholera is commonly not so sudden in its attack as is supposed. It usually gives warning of its approach for some hours, and often for a day or two, by some degree of looseness of the bowels. This may be slight, and it is almost always without pain; but let no one be put off his guard by this circumstance. The Master should, by observation and inquiry, take notice of the health of the crew; and for his guidance, until such time as he may be able to obtain medical assistance, the following recommendations are subjoined:—

If any man should be attacked with any degree of looseness in the bowels the following medicine should be given to him at once: Fifteen or Twenty grains of Opiate confection, mixed with Two table-spoonsful of Peppermint water, or with a little weak brandy and water warm. This should be repeated every three or four hours, or oftener if the attack is severe. If this medicine is not at hand, Eight or Ten drops of Laudanum may be substituted for the Opiate confection.

If the purging is severe, and especially if attended with vomiting or coldness, the man should go to bed immediately, and be kept warm. Bottles of hot water, or bags filled with salt or bran, should be applied to the stomach and feet and along the spine.

A large poultice of mustard and vinegar should be put over the stomach, and kept on fifteen or twenty minutes. The above medicines should be continued every hour, or every two or three hours, according to the emergency of the case, until a doctor can be got. Rest and warmth in bed are essential until medical assistance arrives; but not a moment should be lost in seeking medical aid.

NAVIGATION SCHOOLS.

In connection with the Board of Trade and with the Educational Department of the Committee of Privy Council give instruction not only for boys destined for a seafaring life, but

also for Mates and Masters who wish to take the Certificates of the Board of Trade, and for Seamen and Apprentices desirous of becoming acquainted with the principles of navigation. Schools are now established at the following ports:—**ABERDEEN, HULL, LEITH, LIVERPOOL, SUNDERLAND, GLASGOW, DUNDEE AND WATERFORD.**

In London at:—**THE SAILORS' HOME, Well Street; MR. GREEN'S SAILORS' HOME, BLACKWALL AND POPLAR.**

The Course of Instruction embraces Reading, Writing, Arithmetic, Geography, Sextant Observing, Chart Drawing, Geometry, Algebra, Trigonometry, The Sailings, Use of the Nautical Almanac, and Mathematical Tables, Methods of determining the Latitude and Longitude, Principle and Construction of Chronometers, Nautical Surveying, Compasses and Magnetism of Ships, Theory of Winds, Tides, and Currents, Methods of taking and recording Meteorological Observations, the Principles and Construction of the Steam Engine as applied to the Paddle Wheel and Screw Propeller, Methods of Keeping Ships' Books, with other subjects relative to a seafaring life.

The Instruction of both Sections will be conducted by Teachers who have been educated and trained at the Royal Naval Schools, Greenwich Hospital, and hold Certificates of Competency.

A junior division is attached to each School, in which boys, about to enter on a seafaring life, are well taught in the above subjects, and also in Arithmetic, Book-keeping, Elementary Mathematics, Physical Geography, and subjects relating to trade.

The Schools for adults consist of two divisions: one for Seamen, the other for Masters and Mates. The fees vary slightly in different ports, but generally are (per week), for Seamen, 1s.; Second Mates, 2s. 6d.; Masters and First Mates, 3s.

In the juvenile Schools the fee is 6d.

For general information apply to the Secretary, Department of Science and Art, Cromwell Road, South Kensington. And as regards admission to existing Schools, to their respective Secretaries.

ADMISSION OF OFFICERS INTO THE ROYAL NAVY FROM THE MERCANTILE MARINE.

ADMIRALTY, March 14th, 1855.

THE Lords Commissioners of the Admiralty being desirous to encourage gentlemen from the Merchant Service to enter the Royal Navy in the rank of Second Master, are pleased to invite such Officers as can comply with the requirements of the Queen's Regulations (copy of which is subjoined), to offer themselves for such appointments.

The Admiralty are also pleased to invite Officers who may not be able fully to comply with these requirements, to offer themselves for the appointment of Acting Second Master, provided they shall have completed four years' service at sea, have filled some of the ratings required by the Queen's Regulations before mentioned, shall have completed the full age of 18 years, and shall produce satisfactory proof of diligence, sobriety, and good conduct. The Board of Admiralty are willing to guarantee to them on their completing the necessary period of service in the Royal Navy, and on their conforming in all respects to the requirements at such time existing, their confirmation to the rank of Second Master in Her Majesty's Service, with all the further advantages to be derived from such rank, both as regards Half-Pay and the prospect of future advancement to the rank of Master, &c.

Officers making application must state distinctly their age, the Ships in which they have served, length of service, Ratings, &c., addressing such application to *The Secretary of the Admiralty*, when their claims will receive immediate attention.

EXTRACT FROM THE NEW REGULATIONS RESPECTING SECOND MASTERS IN THE NAVY.

1844.

"To qualify an Officer to receive a Commission as Second Master, he must have served at least six years at sea, three of which in Her Majesty's Navy as Midshipman or Master's Assistant; or having served six years at sea, shall have

actually been one year or more Master, or two years Chief Mate, or three years Inferior Mate of a Merchant Vessel; or shall have served in the two former capacities in a Merchant Vessel for a period, when combined, of eighteen months, or in the two latter, or in the three capacities for a period combined of two years and a half. He shall produce Certificates of diligence, sobriety, and good conduct, as required in the case of Masters; and shall pass such examination as the Admiralty may from time to time direct; but no candidate shall be examined before he shall have attained the age of 19 years, nor after the age of 35."

The following further Notice relative to the admission of officers into the Royal Navy from the mercantile marine has been issued by the Admiralty:

"ADMIRALTY, *March 26th, 1855.*

"With reference to the circular order of the 14th March, 1855, inviting officers from the mercantile marine to offer themselves for the appointment of Acting Second Master in the Royal Navy, the Lords Commissioners of the Admiralty are pleased to direct that such candidates as do not possess the full qualifications prescribed by Admiralty Circular, No. 58, of 17th November, 1849, published in the Quarterly Navy List, shall undergo a preliminary examination before the Hydrographer of the Admiralty and two Masters, previous to receiving an acting appointment; such preliminary examination to be subject to the final examination that would be required before confirmation to the rank of Second Master. Copy of what is required of those candidates who may present themselves for examination before the Hydrographer of the Admiralty is annexed."

ACTING SECOND MASTERS.

It will be required of candidates who present themselves at the Admiralty for examination for the appointment of Acting Second Masters—

That they shall be 18 years old: shall have been four years at sea: shall produce satisfactory testimonials.

Shall have a tolerable general knowledge of the pilotage of the Channel from the North Foreland to the Land's End, including the Downs, Spithead, and Plymouth Sound.

A fair knowledge of seamanship at the discretion of the Examining Officers; also of the stowage of the Ship's hold.

In navigation, they must be able to work a day's work; to find the latitude by meridian altitude of the sun, longitude by chronometer, and variation of the compass by amplitude and azimuth.

A competent knowledge of the tides, so as to be able to find the time of high water on any given day at any given place.

OFFICIAL NUMBERS OF MERCHANT SHIPS.

CUSTOM HOUSE, LONDON,
9th April, 1855.

Notice is hereby Given,

That the New System of Registry for British Ships under the Merchants' Shipping Act, 1854, will come into operation on the 1st May next; but in order to facilitate the Appropriation of Official Numbers to British Ships, instructions have been furnished to the principal Officers of the Customs at the various Ports of the United Kingdom to commence the appropriation on the 16th instant; and on the production to such Officers, at any of the said Ports, of the Certificate of Registry of any Ship, an Official Number will be appropriated and affixed thereto; and as the object to be attained is the better identification of British Ships, it is desirable that the Masters should present the Certificates of Registry at the first Port at which they shall arrive on and after the 16th instant.

By Order of the Commissioners,
W. MACLEAN, *Secretary.*

The Lords Commissioners of the Admiralty having been pleased to direct the Captains and Commanders of her Majesty's ships to make reports of all the Merchant Vessels

they meet at Sea which signalise their Official Numbers, Masters of Merchant Vessels desirous of availing themselves of this regulation, in order that their Names may be published in the Shipping Lists, should provide the Four Flags which represent the Signal Letters appropriated to them in the commercial code of Signals for the use of all Nations, which has been sanctioned by the Board of Trade.

OFFICE OF COMMITTEE OF PRIVY COUNCIL FOR TRADE,
MARINE DEPARTMENT,
WHITEHALL, *December 9th, 1857.*

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to acquaint you, that the Registrar-General of Seamen has brought under the notice of this Board, that it might be found of advantage in carrying out the object of the New Code of Signals and the Mercantile Navy List, if the distinguishing Signal of a British Vessel were indorsed on her Register, conjointly with the Official Number, when appropriated by the Registrar of Shipping.

At present the Registrars are unable to furnish the four letters representing the Flags which make the Signals corresponding with the Official Number, because the unappropriated numbers are not all published in the Mercantile Navy List, and they have no means of finding the Signals by a Table or otherwise.

To obviate this difficulty the Registrar of Seamen has, with my Lords' approval, determined to publish in the Mercantile Navy List for 1858, so many of the unappropriated official numbers and their corresponding Signals, as are likely to be required for the year following the publication, and to continue to do so in each annual edition of the List.

My Lords therefore request, that you will move the Commissioners of Customs, should they see no reason to object, to issue directions to all Registrars at home, to furnish, by indorsement on each Ship's Register, her distinguishing Signal at the time she receives her Official Number.

As soon as the Instructions are prepared for home use, copies can be sent to the Colonial Office for distribution among Registrars in the Colonies.

I am, Sir, your obedient Servant,
T. H. FARRER.

The Secretary of Customs.

CUSTOM HOUSE, LONDON,
19th December, 1857.

The foregoing copy of a Letter from Mr. Farrer, Secretary to the Marine Department at the Board of Trade, is transmitted to the Collector and Comptroller at _____ for their guidance.

By Order of the Commissioners,
F. G. GARDNER.

COPY OF A MINUTE OF THE BOARD OF CUSTOMS OF THE 9TH JANUARY, 1858.

THE Board have had under consideration a Letter from the Registrar-General of Seamen to the Board of Trade, dated the 31st ultimo, suggesting, with reference to the Instructions issued by the General Order, No. 1157, requiring the distinguishing signal of a British Ship to be indorsed on her Certificate of Registry conjointly with the official number, when appropriated by the Registrar of Shipping, that it would greatly conduce to the establishment of a system under which every vessel could make known her identity by one special signal if the Letters were also indorsed upon existing Certificates of Registry;

The Board direct, that the Signal Letters found in the Mercantile Navy List, appropriated to the respective Official Numbers of Ships already registered, be indorsed by the Registrar upon existing Certificates of Registry when the same are presented for the purpose of reporting or clearing the vessel.

And Copies of this Minute are to be delivered to the Collector at this Port and transmitted to the Collector and Comptrollers at the Out-Ports for their information and guidance.

a a

Custom House, London,
14th January, 1858.

The foregoing Copy of the Board's Minute of the 9th instant is transmitted to the Collector and Comptroller at

By Order of the Commissioners,
J. B. HALE.

TO OWNERS AND MASTERS OF FOREIGN VESSELS.

Owners and Masters desirous of having the Names of their Vessels inserted in the forthcoming "Mercantile Navy List,"

and its Monthly Supplements, in order that a Signal may be appropriated, by means of which their identity can be made known to passing Ships, or to Signal Stations, so that they may be reported in the Shipping Lists, are requested to forward, through the Consuls of their Nations, or an established London Agency, the following particulars:—

The Name of the Vessel in full. Tonnage.
Horse Power, if a Steam Vessel. Port of Registry.
National Flag under which the Vessel sails.

All communications to be addressed to J. H. Brown, Esq., Registrar-General of Shipping and Seamen, Adelaide Place, London Bridge, E. C.

SUMS PAID OUT OF MERCANTILE MARINE FUND TOWARDS SAVING LIFE FROM SHIPWRECK, DISTINGUISHING PAYMENTS TO CREWS OF LIFE BOATS, AND REWARDS AND GRATUITIES TO FISHERMEN AND OTHERS.

By the 459th section of the "Merchant Shipping Act, 1854," salvage for Life is paid in priority to all other claims for salvage, and the Board of Trade is empowered to grant remuneration out of the Mercantile Marine Fund to persons saving Life, where such salvage is insufficient; and by the 418th section of that Act the Board of Trade is also empowered to grant sums for establishing and maintaining Life Boats, with the necessary crews and equipments, on the coasts of the United Kingdom. Under the sections quoted, the following sums have been granted during the past year, and paid in part direct by Board of Trade, and partly through the medium of the Royal National Life Boat Institution, as distinguished below.

Month in which payment made.	Payments to Crews of Life boats.		Rewards to Crews of Life Boats.		Rewards and Gratuities to Fishermen and Others.		Total.

NOTE.—In addition to the total sum of 1,388*l.* 13*s.* 8*d.* paid as above, a further sum of 961*l.* 13*s.* 4*d.* was paid by the Board of Trade to the National Life Boat Institution in aid of their funds.

LIST OF PERSONS TO WHOM THE BOARD OF TRADE MEDAL HAS BEEN AWARDED FOR DISTINGUISHED AND GALLANT SERVICES IN SAVING LIFE FROM SHIPWRECK.

DONALD THOMSON, DONALD LYLELL, JOHN MURRAY, JOHN DUNNET, and JOHN NICHOLSON, a medal each, for saving two lives from the wreck of the "Ahti," of Wase, in addition to a pecuniary reward of 15*l.* and a sum of 30*l.* awarded them for salvage of life out of proceeds of sale of the wreck.

COMMANDER STUDDERT, R.N., Inspecting Commander of Coast Guard, Newcastle, Ireland, for saving three lives from the "Martin" of Larne. Pecuniary rewards were also granted to the men under his command.

WILLIAM SMITH and THOMAS TALBOT, of the Coast Guard Service, for saving three of the crew of the "John and Mary" of Sunderland, Near Haddock Station, on the 27th September, in addition to a pecuniary reward of 2*l.* each for the same service.

COMMANDER NORCOK, R.N., Inspecting Commander of Coast Guard, Fowey, for saving the life of George Dewey from the "Endeavour" of Ipswich, wrecked in St. Austell Bay. A pecuniary reward of 3*l.* each was granted to THOMAS HENWOOD and RICHARD JONES, two Coast Guard men who assisted him in the perilous attempt.

NUMBER OF LIVES SAVED FROM SHIPWRECK DURING THE YEAR 1856, DISTINGUISHING THE MEANS BY WHICH THEY WERE SAVED.

By what Means saved.	Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total.
By life boats	43	8	22	12	—	—	8	—	18	—	219	32	362
By luggers, Coast Guard boats, and small craft.	57	79	27	46	687	16	13	30	81	59	48	41	1,184
By ships and steam vessels	118	44	19	3	15	—	1	128	27	35	17	—	407
By assistance from shore with ropes, rockets, and mortar apparatus, &c.	19	24	17	36	—	4	—	—	61	15	34	48	262
By individual exertion of a meritorious character	—	12	—	—	1	—	—	—	8	—	—	7	28

a a 2

NUMBER OF LIVES LOST DURING THE YEAR 1856, COMPARED WITH THE FOUR PRECEDING YEARS.

By the Returns made during the Year 1856 it appears that of the total number of persons on board ships to which casualties have happened on the coasts of the United Kingdom, the Lives of 2,764 were imperilled, of which number 521, or 18·85 per cent., were Lost; viz. :—

Jan.	Feb.	Mar.	April.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total
41	152	40	15	26	—	14	22	122	20	9	60	521

The Total Number of Lives reported as having been Lost during the last Five Years—

1852.	1853.	1854.	1855.	1856.	Total.	Average.
920	689	1,549	469	521	4,148	829·6

From this it will be seen that the Wreck experience of the Year 1856 has been extremely favourable to Life, as contrasted with every year but the year 1855, over which there is a slight increase, the numbers being—

399 less than 1852,
168 " 1853,
1,028 " 1854,
52 more than 1855.

It is remarkable that the great decrease in the number of lives lost in 1855 and 1856 is concurrent with the change effected by the Merchant Shipping Act, 1854.

BYE LAWS RESPECTING PILOTAGE IN THE LONDON DISTRICT AND TRINITY HOUSE OUT-PORT DISTRICTS.

At the Court at Windsor, the 21st day of November, 1855, Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS ships arriving from foreign parts at ports or places within the United Kingdom, and proceeding in ballast to other ports or places within the United Kingdom, for the purpose of taking on board cargo for delivery within the United Kingdom are not exempted from compulsory pilotage when so navigating in ballast.

And whereas it is expedient that such ships should have the privilege of being exempt from compulsory pilotage.

And whereas by the 332nd section of the "Merchant Shipping Act, 1854," it is enacted, that "every pilotage authority shall have power, by bye-law, made with the consent of Her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots, and to annex any terms and conditions to such exemptions."

And whereas the Trinity House, being a pilotage authority, hath submitted, for the consent of Her Majesty in Council, the following bye-law, videlicet :—

"That all ships which shall arrive from foreign parts at ports or places in the United Kingdom, within the pilotage jurisdiction of the Trinity House, shall when navigating from thence in ballast to a port or place in the United Kingdom, for the purpose of taking on board cargo for delivery at some other port or place in the United Kingdom, be exempt from compulsory pilotage while navigating within the limits of such pilotage jurisdiction, subject, nevertheless, to the terms and conditions following, that is to say :—

1. That the owner or Master of the ship claiming exemption from such compulsory pilotage shall provide himself with a certificate of such exemption for the particular voyage therein specified; such

certificate to be signed by the secretary or other proper officer of the Trinity House, and to be delivered to the owner or master of such ship, upon his making a declaration, setting forth that the said ship last arrived from foreign parts, and is about to navigate in ballast to some port or place in the United Kingdom, for the purpose of taking on board cargo, for delivery at another port or place, also in the United Kingdom, and that ports or places being named in such declaration. And further, that the master of such ship shall produce the said certificate, to any duly licensed Trinity House pilot, who shall offer his services as pilot such ship on such voyage; and such master shall on every such occasion, make an entry in the ship's log, of the offer by a Trinity House pilot, of the certificate of exemption having been produced to the said pilot; and of his services having been declined.

2. That in every case in which a certificate of exemption shall have been obtained by misrepresentation, the person on whose application such certificate shall have been granted, shall forfeit double the amount of the pilotage to which the ship so exempted would, but for such certificate, have been liable, to be recovered in like manner as penalties are recoverable under the said Act; and
3. That in every case in which a ship, for which a certificate of exemption has been granted, shall proceed over sea, either before or after arriving at the port or place specified in such certificate, without navigating with cargo to some other port or place in the United Kingdom, the pilotage to which such ship would have been liable, had a pilot been employed, shall be paid to the pilotage authority or sub-commissioners of the district, and be applied to the purposes of the pilotage fund."

Now, therefore, Her Majesty, having taken the said bye-

law into consideration, is pleased, by and with the advice of her Privy Council, and by virtue of the power vested in her by the said recited Act, to declare her consent to the same, and the said bye-law is hereby approved accordingly.

(Signed) W. L. BATHURST.

At the Court at Buckingham Palace, the 16th day of July, 1857, Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS, by the 379th section of "The Merchant Shipping Act, 1854," it is enacted that "the following ships, when not carrying passengers, shall be exempted from compulsory pilotage in the London District, and in the Trinity House House Outport Districts (that is to say) :—

- "1. Ships employed in the coasting trade of the United Kingdom.
- "2. Ships of not more than 60 tons burthen.
- "3. Ships trading to Boulogne, or to any place in Europe north of Boulogne.
- "4. Ships from Guernsey, Jersey, Alderney, Sark, or Man, which are wholly laden with stone, being the produce of those islands.
- "5. Ships navigating within the limits of the port to which they belong.
- "6. Ships passing through the limits of any pilotage district, on their voyages between two places both situate out of such limits, and not being bound to any place within such limits, nor anchoring therein."

And whereas it is expedient that such ships as aforesaid, shall be exempted from compulsory pilotage as well when carrying passengers, as when not carrying passengers; and, by the 332nd section of the said Act, it is enacted that every pilotage authority shall have power by bye-law, made with the consent of her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots; and to annex any terms and conditions to such exemptions; and to revise and extend any exemptions now existing by virtue of the said Act upon such terms and conditions, and in such manner, as may appear desirable to such authority.

And whereas the Trinity House, as a pilotage authority under the said Act, has submitted for the consent of Her Majesty in Council the following bye-law; viz.:

"That all ships mentioned in the 379th section of 'The Merchant Shipping Act, 1854,' shall be exempted from compulsory pilotage in the London District, and in the Trinity House Outport Districts, as well when carrying passengers as when not carrying passengers, provided, as regards any such ship when carrying passengers, the Master or his Mate have a pilotage certificate in force for the time being, enabling such Master or Mate to pilot such ship within such district or districts, granted under the provisions either of the 340th or of the 355th section of the said Act."

And whereas it has been made to appear to her Majesty that the said bye-law is proper and reasonable:

Now, therefore, Her Majesty, by virtue of the power vested in her by the said recited Act, and by and with the advice of her Privy Council, is pleased to approve, and doth hereby approve and signify her consent to, the said bye-law, as a bye-law of the Corporation of the Trinity House of Deptford Strond.

(Signed) C. C. GREVILLE.

At the Court at Buckingham Palace, the 16th day of July, 1857, Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS, by the 340th section of "The Merchant Shipping Act, 1854," it is enacted, that "the Master or Mate of any ship may, upon giving due notice and consenting to pay the usual expenses, apply to any pilotage authority to be examined as to his capacity to pilot the ship of which he is

master or mate, or any one or more ships belonging to the same owner, within any part of the district over which such pilotage authority has jurisdiction, and such Master or Mate shall, if such authority thinks fit, thereupon be examined, and, if found competent, a pilotage certificate shall be granted to him, containing his name, a specification of the ship or ships in respect of which he has been examined, and a description of the limits within which he is to pilot the same, such limits to be within such jurisdiction as aforesaid; and such certificate shall enable the person therein named to pilot the ship or any of the ships therein specified of which he is acting as Master or Mate at the time, but no other, within the limits therein described, without incurring any penalties for the non-employment of a qualified pilot."

And whereas by the 332nd section of that Act, it is enacted that "Every pilotage authority shall have power, by bye-law made by the consent of Her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots, and to annex any terms or conditions to such exemptions, and to revise and extend any exemptions now existing by virtue of the said Act, or any other Act of Parliament, law, or charter, or by usage, upon such terms and conditions and in such manner as may appear desirable to such authority."

And whereas it appears desirable to the Trinity House of Deptford Strond, as a pilotage authority under the said Act, to revise and extend the exemptions now existing by virtue of the said Act, upon the terms and conditions and in manner hereinafter mentioned; and the Trinity House have for that purpose submitted to Her Majesty in Council the following bye-law, viz.:

"That any Master or Mate who holds a pilotage certificate granted by the said Trinity House under the said Act, enabling him to pilot any ship or ships, shall be qualified to pilot any other ship or ships belonging to the same owner or owners as the ship or ships for which his certificate was granted, within the limits described in such certificate, without being compelled to employ a pilot, on the following conditions, viz.:

"That the ship or ships which he is so qualified to pilot shall be of no greater draught of water than the ship or ships in respect of which his certificate was granted.

"And that the name and description of every ship which he is so qualified to pilot shall have been by or with the consent of the said Trinity House first added to, or indorse d upon, his certificate."

And whereas it has been made to appear to Her Majesty that the said bye-law is proper and reasonable;

Now, therefore, Her Majesty, by virtue of the power vested in her by the said recited Act, and by and with the advice of her Privy Council, is pleased to approve, and doth hereby approve and consent to, the said bye-law as a bye-law of the Corporation of the Trinity House of Deptford Strond.

(Signed) C. C. GREVILLE.

CAUTION.

CONVICTION UNDER THE MERCHANT SHIPPING ACT.

THAMES POLICE COURT, LONDON.—On the 20th March, 1857, WILLIAM WEAVER and THOMAS PALMER, lodging-house keepers, were summoned by Order of the Board of Trade, under section 176 of the "Merchant Shipping Act, 1854," which enacts, that "every person who makes, assists in making, or procures to be made, any false certificate or report of the service, qualifications, conduct, or character of any seaman, knowing the same to be false, or who forges, assists in forging, or procures to be forged, or fraudulently alters, assists in fraudulently altering, or procures to be fraudulently altered, any such certificate or report, or who fraudulently makes use of any certificate or report, or of any copy of any certificate or report which is forged or altered or does not belong to him, shall, for each such offence, be deemed guilty of a Misdemeanour," and may be sum-

marily punished before a Magistrate, by a penalty of ONE HUNDRED POUNDS, or by *Imprisonment with hard labour* for any term not exceeding *Six Months*.

And, by 11 and 12 Vict. cap. 43, section 5, "every person who shall aid, abet, counsel or procure the commission of any offence, which is or hereafter shall be punishable on summary conviction, shall be liable to be proceeded against and convicted for the same, either together with the principal offender, or *before* or *after* his conviction, and shall be liable on conviction to the same forfeiture and punishment as such principal offender is or shall be by law liable, and may be proceeded against and convicted either in the county, riding, division, liberty, city, borough, or place where such principal offender may be convicted, or in that in which such offence of aiding, abetting, counselling or procuring may have been committed."

The defendants having been found guilty of aiding and abetting one JAMES LIVINGSTON, a seaman, in unlawfully and fraudulently making use of a certain certificate and report of the service, conduct, character, and qualifications of JOHN PUTTMAN, a seaman; the Magistrate sentenced *WEAVER* to pay a fine of FIFTY POUNDS, or to be *Imprisoned for three Months*, and fined *PALKER* in the sum of TEN POUNDS, or *One Month's Imprisonment*.

NOTICE TO MASTERS AND OWNERS

OF HOME TRADE SHIPS AND HOME TRADE PASSENGER SHIPS.

The Master or Owner of every Home Trade Ship must enter into a written agreement with the crew. The only exceptions are ships under 80 tons burden, employed exclusively between any place in the United Kingdom, and any other place so situate.

Every ship, of whatever tonnage, proceeding to any foreign port, within the limits of Brest and the river Elbe, must be provided with a Home Trade agreement, and also also with an Official Log Book.

Agreements made at any time during the six Months next preceding the 30th day of June or the 31st day of December, are to terminate on those dates respectively in every year, and the Masters or Owners are bound, under a penalty of £5, to deposit every Agreement so made, and also the Official Log Book (if any), with some Shipping Master, within twenty-one days after the above dates, *i.e.*, after the expiration of the Agreement.

MARINE DEPARTMENT, BOARD OF TRADE,
22nd May, 1857.

NOTICE TO MASTERS AND SEAMEN.

CERTIFICATES OF DISCHARGE.

Certificates of Discharge and Character, which are of the greatest importance to seamen and their employers, are often lost, mislaid, or destroyed, and can seldom be kept so as to show continuous good service for many years. To meet this difficulty,—to enable seamen the more easily to keep a record of their services, and to enable Masters to judge of the character of seamen they employ, a new form of Certificate of Discharge and Character has been prepared. It is on parchment, and a tin box is supplied to keep it in. It contains space for entries in respect of more than 30 voyages.

A copy of the entries will be kept, from which, if the Certificate be lost, an official copy of it may be obtained. To insure accuracy, the entries will always be made at the Shipping Office, or if abroad, at the Consulate. Persons serving in the Home Trade who are not discharged at the Shipping Office may, if the Master will attend at the nearest Shipping Office, get the entries made there. A fee of One Shilling will be required when the Certificate is first issued,

to meet the expense attending it, but there will be no other charge.

Further particulars may be learnt at the Shipping Offices.

T. H. FARRER, *Secretary*.

BOARD OF TRADE, WHITEHALL.
August, 1857.

NOTICE TO MASTERS OF SHIPS.

ENTRIES IN OFFICIAL LOG BOOKS.

Considerable inconvenience having been experienced in consequence of the neglect of Ship Masters to make in their Official Log Books the entries required by the Merchant Shipping Act, the attention of Masters is called to the sections of the Act which are given in the Second and Third Pages of the Official Log Book.

Especial attention is directed to the following points:—

Every neglect or omission to make the entries required by Act, subjects the Master to a penalty not exceeding £5.

Every neglect or omission to enter an offence deprives the Master of his ordinary powers of enforcing punishment for such offence on his return, whether by imprisonment, forfeiture of wages, or otherwise.

Every neglect or omission to enter deductions from the wages of seamen who die, prevents the Master and his Owners from obtaining the benefit of such deductions.

The Shipping Masters have orders to verify all statements respecting fines, forfeitures, dead men's wages, discharges or desertions, by reference to the Official Log Book; and to report all cases whenever such entries do not occur in proper form with the proper signatures of the attesting parties.

BOARD OF TRADE, August, 1857.

CAUTION.

TO OWNERS, MASTERS, AND MATES OF FOREIGN-GOING SHIPS.

THAMES POLICE COURT, LONDON.—HENRY LEWIS, part owner of the "AVON," of Yarmouth, Nova Scotia, was summoned under Sec. 136, of the "Merchant Shipping Act, 1854," for proceeding to sea as Master of a foreign-going ship of British registry, not being in possession of a valid Certificate either of competency or service, and for which offence he was fined in the mitigated penalty of £20.

Masters and Mates of all foreign-going ships, before proceeding to sea, are required to possess a Certificate either of competency or service appropriate to their stations, and to produce the same to the Shipping Master when signing an agreement.

This regulation is also extended by Sec. 109 of aforesaid Act to the Masters and Mates of all colonial vessels when employed in trading or going between any place in the United Kingdom and any other place not situate in the possession in which their ships are registered, and the Masters and Mates of such vessels are hereby cautioned to obtain the necessary Certificates before their departure from the United Kingdom.

To be exhibited at the Shipping Offices and at the Custom Houses of all Ports and Creeks in the British possessions abroad.

CAUTION.

CONVICTION FOR PLACING AN IMPROPER WEIGHT ON THE SAFETY VALVE OF A PASSENGER STEAM BOAT.

October 15th, 1857.

ROBERT WILKINSON, an engineer, was charged before the Justices of the Peace, Greenock, by order of the Board of

Trade, under the "Merchant Shipping Act," sec. 302, with having broken or removed the lock to the Government valve of the "Flying Childers," of London, which had been licensed for the purpose of carrying Passengers, and placed thereon an undue weight, beyond the limits fixed by the Engineer Surveyor, by which he had incurred a penalty not exceeding £100.

The Defendant pleaded Guilty to the charge, and this being the first case which had been brought before the Court, he was fined in the mitigated penalty of £15 only.

CAUTION.

CONVICTION FOR SUPPLYING SEAMEN WITHOUT A LICENCE.

November, 11th 1857.

PETER McLEER, of Canning Place, Liverpool, was convicted in the full penalty of £20, and £2 12s. costs, under the 147th Section of the Merchant Shipping Act, wherein it is enacted that—

"If any person not licensed as aforesaid, other than the Owner or Master or a Mate of the ship, or some person who is *bonâ fide* the Servant and in the constant employ of the Owner, or a Shipping Master duly appointed as aforesaid, engages or supplies any Seaman or Apprentice to be entered on board any ship in the United Kingdom, he shall for each seaman or apprentice so engaged or supplied, incur a penalty not exceeding £20 :

"If any Person employs any Unlicensed Person, other than Persons so excepted as aforesaid, for the purpose of engaging or supplying any Seaman or Apprentice to be entered on board any ship in the United Kingdom, he shall for each Seaman or Apprentice so engaged or supplied, incur a penalty not exceeding £20, and if Licensed, shall in addition forfeit his Licence :

"If any person knowingly receives or accepts to be entered on board any ship any Seaman or Apprentice who has been engaged or supplied contrary to the provisions of this Act, he shall for every Seaman or Apprentice so engaged or supplied, incur a penalty not exceeding £20 : "

Also, by section 148—

"If any person demands or receives, either directly or directly, from any Seaman or Apprentice, or from any

person seeking employment as a Seaman or Apprentice, or from any person on his behalf, any remuneration whatever, other than the Fees hereby authorised,* for providing him with employment, he shall for every such offence incur a penalty not exceeding £5."

* One Shilling to be paid to the Shipping Master of the Port, and which is deducted from the Seaman's wages at the termination of the voyage.—See sec. 125 of "The Merchant Shipping Act, 1854."

NOTICE TO SHIP OWNERS AND MASTERS. FORMALITIES ENJOINED BY THE TURKISH AUTHORITIES FOR VESSELS PASSING THROUGH THE DARDANELLES.

The Lords of the Committee of Privy Council for Trade have received, through the Secretary of State for Foreign Affairs, a copy of a despatch and its inclosures from Lord Stratford de Redcliffe, calling attention to the disregard shown by British Ship Masters to the regulations laid down by the Turkish authorities for all ships passing through the Dardanelles.

Shipowners and Masters are accordingly cautioned, that the facilities which were temporarily granted to transports passing through the Dardanelles during the late war have been withdrawn, and that vessels are now required as formerly to stop at the Dardanelles for the purpose of completing the necessary formalities, and of delivering the Firmans granted to them at Constantinople.

Hitherto, upon the non-observance of these regulations, the Turkish authorities have been in the habit of firing blank cartridge to attract the attention of vessels passing by the forts ; but as this lenient mode of proceeding has not had the desired effect, the Pacha in command has signified to Her Majesty's Ambassador at Constantinople his determination no longer to tolerate such unwarrantable and manifestly wilful irregularities, and has ordered that (after allowing a reasonable time for the notification to masters of steam vessels and their agents at Constantinople of his intention) shotted guns shall be fired into any vessel attempting to evade the regulations in question.

BOARD OF TRADE, WHITEHALL,
July 16th, 1857.

ADMIRALTY NOTICE RESPECTING LIGHTS AND FOG SIGNALS TO BE CARRIED AND USED BY SEA-GOING VESSELS, TO PREVENT COLLISION.

BY THE COMMISSIONERS FOR EXECUTING THE OFFICE OF
LORD HIGH ADMIRAL OF THE UNITED KINGDOM
OF GREAT BRITAIN AND IRELAND, &c.

By virtue of the power and authority vested in us, we hereby revoke, as from and after the thirtieth day of September, 1858, the regulations made and published by us on the first day of May, 1852, relating to the Lights to be carried by Sea-going Vessels to prevent collision : And we hereby make the following regulations, and require and direct that the same be strictly observed and carried into effect on and after the first day of October, 1858.

STEAM VESSELS.

All Sea-going Steam Vessels, when under Steam, shall, between sunset and sunrise, exhibit the following Lights :

1. A bright White Light at the Foremast Head.
A Green Light on the Starboard side.
A Red Light on the Port Side.

2. The Mast-head Light shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 5 miles, and shall show an uniform and unbroken light over an arc of the horizon of 20 points of the compass, and it shall be so fixed as to throw the light 10 points on each side of the ship, viz. : from right ahead to 2 points abaft the beam on either side.

3. The Green Light on the Starboard side and the Red Light on the Port side shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 2 miles, and show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, and they shall be so fixed as to throw the light from right ahead to 2 points abaft the beam on the Starboard and on the Port sides respectively.

4. The side Lights are to be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent the lights from being seen across the bow.

5. Steam Vessels under Sail only, are not to carry their masthead Light.

FOG SIGNALS.

All Sea-going Steam Vessels, whether propelled by paddles or screws, when their steam is up, and when under way, shall in all cases of Fog use as a Fog Signal a Steam Whistle, placed before the Funnel at not less than 8 feet from the deck, which shall be sounded once at least every five minutes; but when the steam is not up, they shall use a Fog Horn or Bell, as ordered for Sailing Ships.

SAILING VESSELS.

1. All Sea-going Sailing Vessels when under-way or being towed, shall between sunset and sunrise exhibit a Green Light on the Starboard side and a Red Light on the Port side of the vessel, and such Lights shall be so constructed as to be visible on a dark night, with a clear atmosphere, at a distance of at least 2 miles, and shall show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, from right a-head to 2 points abaft the beam on the Starboard and on the Port sides respectively.

2. The Coloured Lights shall be *fired* whenever it is practicable so to exhibit them; and shall be fitted with inboard screens projecting at least 3 feet forward from the Light, so as to prevent the Lights being seen across the bow.

3. When the Coloured Lights cannot be fixed (as in the case of small vessels in bad weather), they shall be kept on deck between sunset and sunrise, and on their proper sides of the vessel, ready for instant exhibition, and shall be exhibited in such a manner as can be best seen on the approach of, or to, any other vessel or vessels, in sufficient time to avoid collision, and so that the Green Light shall not be seen on the Port side, nor the Red Light on the Starboard side.

FOG SIGNALS.

All Sea-going Sailing Vessels, when under-way, shall, in all cases of Fog, use when on the Starboard Tack a Fog Horn, and when on the Port Tack shall Ring a Bell. These signals shall be sounded once at least every five minutes.

SAILING PILOT VESSELS are to carry only a White Light at the Mast-head, and are to exhibit a Flare-up Light every 15 minutes, in accordance with Trinity House regulation.

VESSELS AT ANCHOR.

All Sea-going Vessels when at anchor in roadsteads or fairways, shall between sunset and sunrise exhibit where it can best be seen, but at a height not exceeding 20 feet above the hull, a White Light in a Globular Lantern of 8 inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon, at a distance of at least 1 mile.

Given under our hands this 24th day of February, 1858.

CHARLES WOOD.
R. S. DUNDAS.

By Command of their Lordships,

W. G. ROMAINE,
Secretary.

The following Diagrams are intended to illustrate the use of the Lights carried by vessels at sea, and the manner in which they indicate to the vessel which sees them the position and description of the vessel which carries them:—

FIRST.—When both Red and Green Lights are seen :

A sees a Red and Green Light ahead;—A knows that
a vessel is approaching her on a course directly opposite to her own, as B.

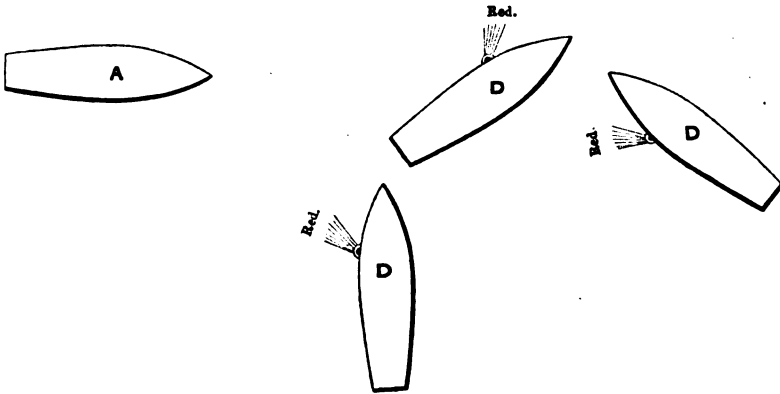

If A sees a White Mast-head Light above the other two, she knows that B is a steam-vessel.

SECOND.—When the Red, and not the Green Light is seen :

A sees a Red Light ahead or on the bow:—A knows that either,
1, a vessel is approaching her on her port bow, as B;

or 2, a vessel is crossing in some direction to port, as D D D.

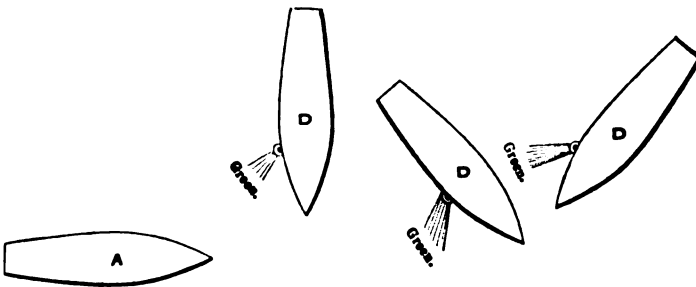

If A sees a White Mast-head Light above the Red Light, A knows that the vessel is a steam vessel and is either approaching her in the same direction, as B, or is crossing to port in some direction, as D D D.

THIRD.—When the Green, and not the Red Light is seen :

A sees a Green Light ahead or on the bow ;—A knows that either,
1, a vessel is approaching her on her starboard bow, as B ;

or 2, a vessel is crossing in some direction to starboard, as D D D.

If A sees a White Mast-head Light above the Green Light, A knows that the vessel is a steam-vessel, and is either approaching her in the same direction as B, or is crossing to starboard in some direction, as D D D.

TRINITY HOUSE NOTICES.

GUNPOWDER.—CAUTION.

NOTICE TO MASTERS OF VESSELS, PILOTS, AND ALL OTHER PERSONS NAVIGATING THE RIVER THAMES.

TRINITY HOUSE, LONDON,
5th September, 1855.

Whereas it has been represented to this Corporation, that the cautionary Notice, which was issued from this House, dated the 6th June, 1828, is disregarded, and that very serious apprehensions of danger are entertained by the Officers of Her Majesty's Ordnance, from the incautious practice of Steam Vessels making up their Fires when in proximity to the Ordnance Magazines at Purfleet, and also from their passing close to Windward of Vessels filled with Powder off that place, when such vessels are in the act of unloading; and it being essentially necessary that the utmost caution should be used for avoidance of danger, not only on the part of persons having the direction of Steam Vessels, but also by those in charge of all vessels navigating the River Thames;

Masters of vessels, Pilots, and other persons, are hereby directed and strictly enjoined to observe the following regulations, viz.:—

As respects both Steam and Sailing Vessels, and also Barges and other Craft, *not to approach* any vessel, at the Mast Head of which the *distinguishing Mark* of a *Red Flag*, denoting Gunpowder on board, shall be displayed:—

And, as respects Steam Vessels in particular, that in addition to the foregoing, the Fires be not, on any account, made up when passing, or in proximity to, the Ordnance Magazines at Purfleet, or when passing to windward of Vessels on board of which the *Red Flag* aforesaid is displayed.

As a further measure of precaution, Pilots and other persons having charge of vessels freighted with Powder, and which draw more water than admits of their entrance into the Ordnance Creek at Purfleet, are hereby *directed* to anchor such vessels in *Aveley Hole*, where they will lie out of the regular or necessary track of vessels traversing the River.

All persons herein concerned are hereby cautioned, that all such penalties as are, or may be, by law imposed, will be strictly enforced against all such persons as shall fail in observing the foregoing regulations.

By Order,
J. HERBERT, *Secretary*.

FOG SIGNAL GUN, NEAR HOLYHEAD.

TRINITY HOUSE, LONDON,
23rd January, 1857.

It having been arranged by the Lords Commissioners of the Admiralty and the Board of Trade, in conjunction with this Corporation, that for the greater security of Vessels navigating in that locality generally, and of Her Majesty's Packets in particular, a Signal Gun shall be fired from the

Telegraph Station on Holyhead Mountain, during *Foggy weather*,

Notice is hereby Given,

That a Gun of large size has been placed in position on the said Mountain accordingly, and that on and after 1st February next, the said Gun will be discharged during *Foggy weather* in the manner following, viz.:—

Once every half-hour, *Greenwich time*, and once every quarter of an hour, from half-past five o'clock, *p.m.*, until the arrival of the Mail Packet; and the same from half-past eleven o'clock, *p.m.*, until the midnight Boat is in.

By Order,
P. H. BERTHON, *Secretary*.

PRINCES CHANNEL.

ENTRANCE TO THE THAMES.

TRINITY HOUSE, LONDON,
4th February, 1857.

The additional light Vessel which was moored in October last, in the Princes Channel, having rendered it unnecessary that a Buoy of such large dimensions as heretofore should be continued at the North Tongue;—

Notice is hereby Given,

That in the early part of the month of April next, the large Spiral Buoy now at the North Tongue, will be taken away, and that a spiral Buoy of smaller size, painted *Black*, and surmounted by a Staff and Ball, will be placed at that station in lieu thereof.

By Order,
P. H. BERTHON, *Secretary*.

TRINITY HOUSE, LONDON.
7th February, 1857.

Whereas the *Buoys* and *Beacons* placed by the Corporation of Trinity House for the guidance of Shipping navigating on various parts of the Coast of England, and especially in the Channels leading to the Port of London, have in repeated instances been negligently or wilfully broken away, or otherwise damaged and rendered unserviceable, by Vessels running foul of, or making fast to, and riding by the same:—And the *Light Vessels* moored off different parts of the Coast, have also been frequently run on board of, and much damaged, with imminent risk of being broken from their moorings and lost;—

And whereas the safety of shipping, and of the Lives and Property embarked therein, requires that the said *Light Vessels*, *Buoys*, and *Beacons*, should uninterruptedly preserve their respective stations,—Masters and other persons having

charge of Vessels are hereby cautioned against the commission of such offences, and are desired to take notice that by "The Merchant Shipping Act, 1854," Sect. 414, it is enacted as follows, viz. :—

"DAMAGE TO LIGHTS, BUOYS, AND BEACONS.

"If any person wilfully or negligently commits any of the following offences," (that is to say,)

"(1.) Injures any Lighthouse or the Lights exhibited therein, or any Buoy or Beacon;

"(2.) Removes, alters, or destroys any Light-ship, Buoy, or Beacon;

"(3.) Rides by, makes fast to, or runs foul of, any Light-ship or Buoy; he shall in addition to the expenses of making good any damage so occasioned, incur a penalty not exceeding £50."

By Order,

P. H. BERTHON, *Secretary.*

BUOYS AND BEACONS.

TRINITY HOUSE, LONDON,
20th February, 1857.

The Buoy placed by this Corporation on the Shivering Sand having, on two recent occasions, been much damaged by Vessels running foul of it,

Notice thereof is hereby Given,

That any person or persons who shall furnish such information as may lead to the discovery and conviction of the parties by whom the said Buoy, or any other Buoy or Beacon belonging to this Corporation was or may hereafter be run foul of and damaged, will be *liberally rewarded.*

By Order,

P. H. BERTHON, *Secretary.*

CARDIFF GROUNDS, BRISTOL CHANNEL.

TRINITY HOUSE, LONDON,
20th February, 1857.

The Western end of the Sand in the Bristol Channel, called the Cardiff Grounds, having grown up in a N.N. Westerly direction from the West Cardiff Buoy,

Notice is hereby Given,

That an additional Buoy painted *Black* and *White*, in vertical stripes, marked "N.W. Spit," on the Head thereof, has been placed on the N.W. Spit of that Sand, and lies in two fathoms low water spring tides, with the following marks and compass bearings, viz.—

The Eastern side of Steep Holm, on with the Western High Water Mark of Flat Holm	S. $\frac{1}{2}$ E.
The Tower of Flat Holm Light House	S. $\frac{1}{2}$ E.
The Lower Northern part of Sully Island, just open S. of Ball Point	W. $\frac{1}{2}$ S.
West Cardiff Buoy	S.S.E. Easterly.
(Distant about 2 Cables' Length.)	
Penarth Church	N. $\frac{1}{2}$ W.

By Order,

P. H. BERTHON, *Secretary.*

BUOY AT DOVER.

TRINITY HOUSE, LONDON,
24th February, 1857.

The Contractors for the Admiralty Pier Works, at Dover, having caused a *White* Spiral Buoy with the words, "Admiralty Pier Works" marked thereon in Black Letters, and fitted with a Fog Bell, to be placed 250 feet in a S.E. (magnetic) direction from the outer edge of the scaffolding of the Works,

Notice thereof is hereby Given,

for the information of Masters of Vessels, Pilots, and others.

By Order,

P. H. BERTHON, *Secretary.*

BUOYAGE OF THE RIVER TEES.

TRINITY HOUSE, LONDON,
25th February, 1857.

Notice is hereby Given,

That in consequence of an alteration in the Direction of the Channel at the Entrance of the River Tees,

The South Gare Buoy has been removed 65 Fathoms to the Westward, and now bears from the Spiral Buoy S.W.

The No. 1. *Black* Buoy has been removed 40 Fathoms to the Westward, and now bears from the Spiral Buoy S.W. $\frac{1}{2}$ W.

The No. 1. *Red* Buoy has also been removed 20 Fathoms to the Westward.

The Bran Sand Light Towers have also been moved the following distances to the Eastward, viz. :—

The High Light Tower 215 Fathoms,—	
The Low Light Tower 187 ditto;	
their line of bearing inwards being now	S. $\frac{1}{2}$ E.

Masters of Vessels and others entering the Tees, should therefore steer from the Fair Way Buoy S.W. $\frac{1}{2}$ W. until they bring the Bran Sand Lights in line, when they can proceed as accustomed to do before the alterations above mentioned.

By Order,

P. H. BERTHON, *Secretary.*

COCKBURN SHOAL, KING ROAD, BRISTOL CHANNEL.

TRINITY HOUSE, LONDON,
12th March, 1857.

This Corporation having caused a Buoy, painted *Black*, and marked "Cockburn," to be placed about 20 fathoms in a South East direction from the Cockburn Shoal,

Notice thereof is hereby Given,

and that the said Buoy lies in 4 fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

The Avon Light House, one-third between Penpole House and Miles's House	S. E.
High Water Mark of Blacknose Point, on with Posset Point	W. $\frac{1}{2}$ S.

By Order,

P. H. BERTHON, *Secretary.*

HIGH CLIFF PATCH, CAERMARTHEN BAY.

TRINITY HOUSE, LONDON,
12th March, 1857.

This Corporation having caused a Buoy, painted *Black*, and marked "High Cliff Patch," to be placed on the Sand known by that name in Caermarthen Bay,

Notice thereof is hereby Given,

and that the Buoy lies in 3 fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

Tenby Church	N. $\frac{1}{2}$ W.
The Lantern of the Light House on Caldy Island, seen over High Cliff	S.S. W. $\frac{1}{2}$ W.
Woolhouse Beacon	E. by N. $\frac{1}{4}$ N.
Giltar Head	W. by N. $\frac{3}{4}$ N.

By Order,

P. H. BERTHON, *Secretary*.

MARGATE SAND.

TRINITY HOUSE, LONDON,
31st March, 1857.

The Southern part of the Hook Spit of Margate Sand having grown out, the S.E. Margate Buoy has been removed about two cables' length, in a South-Easterly direction, and now lies in $4\frac{1}{2}$ fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

Margate Pier Light House on with Margate North Mill, bearing	S.E. $\frac{3}{4}$ E.
Powell's Belfry, on with the West Preventive Station in Epple Bay	S. by W. $\frac{1}{2}$ W.

By Order,

P. H. BERTHON, *Secretary*.

VARNE SAND, OFF FOLKSTONE.

TRINITY HOUSE, LONDON,
28th April, 1857.

Notice is hereby Given,

That, pursuant to the intention expressed in the Advertisement from this House, dated 20th January last, a large Spiral Buoy, coloured *Red*, and surmounted by a staff and ball, has been placed in 12 fathoms at low water spring tides on the North West side of the Varne Sand, and to the Westward of the Shoalest Water, with the following marks and compass bearings, viz. :—

Paddlesworth Trees, in line with a White Hotel at the East End of Folkstone Cliff	N. by W. $\frac{1}{2}$ W.
South Foreland High Light House	N.E. by N. [Distant 10 miles]
Dover Castle	N. N. E. [Distant $9\frac{1}{4}$ miles]
Dungeness Light House	W. $\frac{1}{2}$ N. [Distant 14 miles]

Masters of Vessels, Pilots, and others are hereby cautioned not to cross the Varne Sand within two miles on either side to the North Eastward or South Westward of the above-named Buoy.

By Order,

P. H. BERTHON, *Secretary*.

BUOYAGE OF THE RIVER TEES.

TRINITY HOUSE, LONDON,
11th July, 1857.

Notice is hereby Given,

That, in consequence of an alteration in the direction of the Channel at the entrance of the River Tees,

The South Gare Buoy has been moved and now bears from the Spiral Buoy	S.W. by W.
The No. 1. Black Buoy has also been moved about 40 fathoms to the westward, and now bears from the Spiral Buoy	W.S.W.
and from the South Gare Buoy	N.W. by W.

It has also become necessary to move both the Bran Sand Lights about 300 fathoms to the eastward; and on and after the 10th instant these Lights will be exhibited from temporary buildings in the new position, bearing from each other S. by E. $\frac{1}{4}$ E.

Masters of Vessels and others entering the Tees, are hereby cautioned not to use the Old Light Towers as *day marks*, till further notice.

By Order,

P. H. BERTHON, *Secretary*.

LOWESTOFT AND YARMOUTH ROADS.

TRINITY HOUSE, LONDON,
21st July, 1857.

Notice is hereby Given,

That, in consequence of the North End of the Newcome Sand having grown up, *The Stanford Light Vessel* has been moved nearly a cable's length to the E.S.E. of her former position, into six fathoms at low water spring tides and with the following marks and compass bearings, viz. :—

Two remarkably high Chimneys at Lowestoft, nearly in line	N.W. by W.
The south end of the New Hotel at Lowestoft, in line with the North Lighthouse on the pier	W. $\frac{1}{2}$ N.
East Newcome Buoy, just open to the Eastward of the North East Newcome	S.S.W. $\frac{3}{4}$ W.

Notice is also Given,

That the north end of the Scroby Sand having grown out to the westward, the North Scroby Buoy has been moved about a cable's length to the westward of its former position, and now lies in 5 fathoms at low water spring tides, with the following mark and compass bearings, viz. :—

Calstoe Mill, in line with the Beachmen's Look-out	S.W. $\frac{3}{4}$ W.
Cockle Light Vessel	N.W. by N.
Middle Scroby Buoy	S. by W. $\frac{1}{4}$ W.

By Order,

P. H. BERTHON, *Secretary*.

CALDY ISLAND, CAERMARTHEN BAY.

TRINITY HOUSE, LONDON.
28th July, 1857.

Notice is hereby Given,

That two Buoys, as undermentioned, have been placed to mark the Channel between the Spit off Eel Point to the southward, and Giltar Patch to the northward, bearing from each other, N.N.W. and S.S.E. by compass, and distant about 400 feet, viz. :—

The Eel Point Buoy (*Red*) lies in $3\frac{1}{2}$ fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

Monkstone Point, seen between St. Catherine's Island, and the Skear Rock N.E.
 The Spur of Caldy Island, just open of High Cliff Stack S.S.E. $\frac{1}{2}$ E.
 Giltar Patch Buoy N.N.W.
 The Giltar Patch Buoy (*Black and White, striped*) lies in $3\frac{1}{2}$ fathoms at low water spring tides, with the following marks and compass bearings, viz. :—
 East end of Caldy Priory, nearly in line with the west end of the Lighthouse buildings . S. $\frac{1}{2}$ E.
 The Spur of Caldy Island, a little open of the High Cliff Stack S.S.E. $\frac{1}{2}$ E.
 Eel Point Buoy S.S.E.

By Order,

P. H. BERTHON, *Secretary.*

OWERS LIGHT VESSEL.

TRINITY HOUSE, LONDON,
 8th August, 1857.

Notice is hereby Given,

That, pursuant to the intention expressed in the advertisement from this House, dated 1st ultimo, the Owers Light Vessel has been moved about one mile S.S.W. $\frac{1}{2}$ W., from her former position, and is now moored in 19 fathoms at low water spring tides with the following mark and compass bearings, viz. :—

The East end of a round clump of trees in line with Pagham Church N. $\frac{1}{2}$ E.
 Eastborough Head Beacon Buoy N.N.E. $\frac{1}{2}$ E.
 Mixon Beacon N.N.W.
 Elbow of the Owers N.N.W.
 Nab Light Vessel N.W. $\frac{1}{2}$ W.
 Distant $\frac{3}{4}$ mile.
 Distant 14 miles.

By Order,

P. H. BERTHON, *Secretary.*

STANFORD CHANNEL.

TRINITY HOUSE, LONDON,
 17th August, 1857.

Notice is hereby Given,

That, in consequence of the navigation of the Stanford Channel being somewhat contracted by the removal of the Light Vessel to a more easterly position, an additional Buoy, *chequered Black and White*, and marked "West Holm," has been placed on the west side of the Holm Sand, as a caution to Vessels standing towards the east side of the Channel.

The Buoy lies in $5\frac{1}{2}$ fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

Kirkley Mill over the centre of the Royal Hotel at Lowestoft W. $\frac{1}{2}$ N.
 Corton Church Tower in line with a White Brick House on the cliff N. by W.
 Stanford Light Vessel W.
 Distant $\frac{1}{10}$ ths of a mile.

Holm Hook Buoy S.W. $\frac{1}{4}$ S.
 N.W. Holm Buoy N. by E.

By Order,

P. H. BERTHON, *Secretary.*

COCKLE GAT, YARMOUTH.

TRINITY HOUSE, LONDON,
 15th October, 1857.

The Scroby Sand having extended in a N.N.E. direction,

Notice is hereby Given,

That the North Scroby Buoy has been moved about $2\frac{1}{2}$ Cables' length from its former position, and now lies in 4 fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

Caistor South Mill, in line with a small building north of the Beachmen's Look-out S.W. by W. $\frac{1}{2}$ W.
 Ormesby Church and Mill, in line W. $\frac{1}{2}$ N.
 Cockle Light Vessel W. by N. $\frac{1}{2}$ N.
 (Distant 3 Cables, length,)

By Order,

P. H. BERTHON, *Secretary.*

BUOYS IN SWANSEA BAY.

TRINITY HOUSE, LONDON,
 15th October, 1857.

Referring to the advertisement from this House, dated 4th ultimo,

Notice is hereby Given,

That a buoy, *chequered Black and White*, has been placed off the S.W. end of the Inner Green Grounds in Swansea Bay. The Buoy lies in $2\frac{1}{2}$ fathoms at low water spring tides, with the following marks and compass bearings, viz. :—

The Tut Head, just seen between the Keepers' Houses at the Mumbles Light House W. $\frac{1}{4}$ N. Northerly.
 Woodland Castle N.N.W. $\frac{1}{4}$ W.
 Kilvey Old Mill N.E. $\frac{1}{4}$ N.
 Green Grounds Buoy East.

Notice is also Given,

That the Bell Buoy on the Mixon Shoal has been painted *Black*, in accordance with the intention signified in the said advertisement, dated 4th ultimo.

By Order,

P. H. BERTHON, *Secretary.*

PILOT CUTTERS OFF DUNGENESS.

TRINITY HOUSE, LONDON,
 7th November, 1857.

Notice is hereby Given,

That, with a view of facilitating the supply of Pilots to vessels arriving from the westward, this Corporation has caused an additional Pilot Cutter to be stationed on the cruising grounds between Dungeness and the Downs,—and that from this day, the said Cutters, now three in number, will cruise in the order and on the Stations following, viz. :—

The First or Westernmost Cutter off Dungeness.

The Second or Middle Cutter in the fairway of vessels between Dungeness and Dymchurch bearing N.N.W.

The Third or Easternmost Cutter off Folkstone, well out in the fairway, so as to supply such vessels as may have passed the other Cutters without obtaining Pilots.

The attention of Masters of ships coming from the Westward, and bound to the River Thames and Medway, is particularly directed to the 378 Sec. of the Merchant Shipping Act, 1854, whereby it is provided, that the—

“Master of any Ship coming from the Westward, and bound to any Place in the Rivers *Thames* and *Medway*, (unless she has a qualified Pilot on board or is exempted from compulsory Pilotage,) shall on the Arrival of such Ship off *Dungeness*, and thenceforth until she has passed the South Buoy of the *Brake*, or a Line to be drawn from *Sandown Castle* to the said Buoy, or until a qualified Pilot has come on board, display and keep flying the usual Signal for a Pilot; and if any qualified Pilot is within Hail, or is approaching and within Half a Mile, and has the proper distinguishing Flag flying in his Boat, such Master shall, by heaving-to in proper Time or shortening Sail, or by any practicable Means consistent with the Safety of his Ship, facilitate such Pilot getting on board, and shall give the Charge of piloting his Ship to such Pilot; or if there are Two or more of such Pilots offering at the same Time, to such One of them as may, according to the Regulations for the Time being in force, be entitled or required to take such Charge; and if any such Master fails to display or keep flying the usual Signal for a Pilot in manner herein-before required, or to facilitate any such qualified Pilot as aforesaid getting on board as herein-before required, or to give the Charge of piloting his Ship to such Pilot as herein-before mentioned in that Behalf, he shall incur a Penalty not exceeding double the Sum which might have been demanded for the Pilotage of his Ship, such Penalty to be paid to the *Trinity House*, and to be carried to the Account of the *Trinity House* Pilot Fund.”

By Order,

P. H. BERTHON, *Secretary*.

BUOYAGE OF THE RIVER TEES.

TRINITY HOUSE, LONDON,
24th November, 1857.

The Sands at the entrance of the River Tees having so far shifted as to form a more direct channel into that river, farther to the eastward,

Notice is hereby Given,

That, on or about the 1st January next, the following changes will take place in the position of the Bran Sand Lights, and of the Buoys, viz. :—

The present lights will be moved from the Bran Sand to the opposite side of the river, and placed on the Seal Sand, and will be exhibited in line, bearing by compass S.W. $\frac{1}{4}$ S. inwards.

A corresponding alteration will be made in the positions of the four following Buoys, viz. :—

The Bar Buoy (*chequered Black and White*),
No. 1, *Black Buoy*, and
Nos. 1 and 2, *Red Buoys*,

leaving the *Black* buoys on the starboard hand on entering and the *Red* buoys on the Port Hand, as heretofore.

Mariners are hereby cautioned to observe that the Old Light Houses, still remaining on the Bran Sand, are *not* to be used as *Day Marks*.

Further particulars will be published after the above named alterations have been effected.

By Order,

[P. H. BERTHON, *Secretary*.]

SEA REACH, RIVER THAMES.

TRINITY HOUSE, LONDON,
8th December, 1857.

The Yantlet Middle having extended itself to the Northward, by which the Channel between that Shoal and the River Middle has become much contracted,

Notice is hereby Given,

That a Beacon with a Triangular Top, surmounted by a Ball, has been placed upon Canvey Island, about a quarter of a mile to the Eastward of the Scar Houses, to facilitate the navigation of the said Channel;—Masters, Pilots, and others having charge of deep ships, are therefore to observe, that the said Beacon in line with the South Leg of the Chapman Lighthouse, bearing N.W. by W. $\frac{1}{4}$ W. by compass, will lead into the best water between the above-named Shoals, viz., into a depth of 23 feet at low water spring tides.

By Order,

P. H. BERTHON, *Secretary*.

ADDITIONAL LIGHTHOUSE OFF THE SCILLY ISLANDS.

TRINITY HOUSE, LONDON,
15th December, 1857.

The Lighthouse which has been for some time past in course of erection upon the Bishop Rock,—the South-Westernmost of the Scilly Group, bearing W. $\frac{1}{4}$ N. by compass, 4 miles distant from St. Agnes,—being now far advanced towards completion,

Notice is hereby Given,

That the Light will be exhibited therefrom on or about the 1st September next (1858).

Mariners are to observe, that the Bishop Rock Light will be a *Fixed* Bright Dioptric Light of the first order, and will burn at an elevation of 110 feet above the level of high water, and illuminate the entire circle, and will be visible in clear weather at a distance of about 14 miles.

By Order,

P. H. BERTHON, *Secretary*.

BUOYS AT THE ADMIRALTY PIER WORKS, DOVER.

TRINITY HOUSE, LONDON,
15th December, 1857.

The Contractors for the Admiralty Pier Works at Dover, having caused the under-mentioned Buoys to be placed near these Works, viz. :—

A *White* Buoy with the words “Dover Pier,” in *Black* Letters thereon, 250 feet South of the Outer End of the Stage,

A *Cylindrical Black* Buoy, with the words “Dover Pier” thereon, in *White* Letters, and fitted with a Staff and Vane, 1000 feet West of the End of the Stage, and

A *Cylindrical Black* Buoy, marked with the same words in *White* Letters, the same distance from the Stage, and 100 feet North of the last-named Buoy,

Notice thereof is hereby Given, :

for the Information of Masters of Vessels, Pilots, and others.

By Order,

P. H. BERTHON, *Secretary*.

STANFORD CHANNEL.

TRINITY HOUSE, LONDON,
21st December, 1857.

Referring to the Advertisement from this House, dated the 18th ultimo,

Notice is hereby Given,

That the *Black* Buoy at the Southern Entrance of the Stanford Channel called the Holm Tail Buoy, has been removed, and that an eight feet Spiral Buoy, painted *Black* and *White*, in *Stripes*, and surmounted by a Staff and Triangle, has been placed in lieu thereof.

By Order,

P. H. BERTON, *Secretary*.

HARWICH HARBOUR.

TRINITY HOUSE, LONDON,
31st December, 1857.

Notice is hereby Given,

That the marks heretofore used for leading vessels clear of the Guard End to an anchorage off the Town of Harwich, having become obscured by trees, this Corporation has caused Two Spar Beacons, painted *Red*, with *Circular Tops*, to be erected to the Northward of Languard Fort, which Beacons, when kept in line, are to be used for the above-named purpose.

By Order,

P. H. BERTON, *Secretary*.

THE END.

KEATING'S COUGH LOZENGES.

A **SAFE** and **CERTAIN REMEDY** for Coughs, Colds, Hoarseness, and other affections of the Throat and Chest. In **INCIPIENT CONSUMPTION, ASTHMA, and WINTER COUGH** they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child; while the **PUBLIC SPEAKER and PROFESSIONAL SINGER** will find them invaluable in allaying the hoarseness and irritation incidental to vocal exertion, and also a powerful auxiliary in the production of **MELODIOUS ENUNCIATION**.

Prepared and sold in Boxes, 1s. 1½d., and Tins, 2s. 9d., 4s. 6d., and 10s. 6d. each, by **THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Churchyard, London**, and by all Druggists.

VALUABLE TESTIMONIAL.

Copy of a Letter from the late **COLONEL HAWKER**, the well-known Author on "**GUNS AND SHOOTING**."

LONGFARISH HOUSE, NEAR WHITBURN, HANTS. October 21, 1846.

SIR,—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your **LOZENGES**. I had a cough for several weeks that defied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs. I am, Sir, your humble servant,

To **MR. KEATING, 79, St. Paul's Churchyard.**

P. HAWKER.

KEATING'S PALE NEWFOUNDLAND COD LIVER OIL,

PERFECTLY PURE, NEARLY TASTELESS, and free from Adulteration of any kind, having been analysed, reported on, and recommended by **PROFESSORS TAYLOR and THOMSON**, of Guy's and St. Thomas's Hospitals, who, in the words of the late **DR. PEREIRA**, say, that "The finest Oil is that most devoid of colour, odour, and flavour," characters this will be found to possess in a high degree.

Half-pint, 1s. 6d., Pint, 2s. 6d., Quart, 4s. 6d., and Five-pint Bottles, 10s. 6d., Imperial Measure.
79, St. Paul's Churchyard, London.

TESTIMONIALS.

On board Her Majesty's Ship "North Star," in the North Seas, for two years, the Ship's time was kept by one of these Watches, all other Watches on board having stopped.

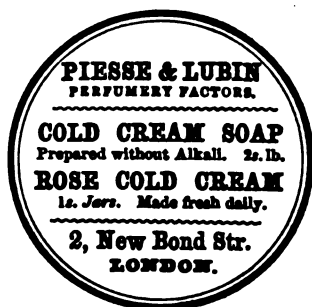

On board Her Majesty's Ship "Assistance," Sir E. Belcher, Captain, in the North Seas. Such were the superior merits of one of Jones's Levers, that Thirty of the Ship's Company agreed to purchase each a Watch on their return.

Captain Thomson's Letters in "Kara, and our Captivity in Russia." "My Watch is a very good one, and is the best here. I advise you always to go to Jones's. I have seen many of their Watches in India, and never saw a bad one."

On receipt of a Post-Office Order for One Shilling above the price, one will be sent free to any part of the Kingdom.

ADVERTISEMENTS.

SARSAPARILLA.

BRIDGE'S SARSAPARILLA continues to be recommended by the most eminent of the Faculty as a RESTORATIVE for IMPURITY of the BLOOD, AFFECTIONS of the LIVER, INDIGESTION, CUTANEOUS DISEASES, CHRONIC RHEUMATISM, ATTENUATION of BODY, CONSTITUTIONAL DEBILITY; as an ALTERNATIVE at the CHANGES of the SEASONS, and for FREEDING the SYSTEM from the effects of Mercury.

"A superior preparation that may always be relied on."—*Sir Asley Cooper.*

"We are in every respect satisfied with it."—*Lancet.*

"We recommend Bridge's Preparation to all who may require a course of Sarsaparilla."—*Medical Review.*

"Latterly, in consequence of much DEBILITY, &c., subsequent to CHOLERA, I have freely used your Sarsaparilla with complete benefit and success."—*J. Post, F.R.C.S.E.*

In India it is well known, extensively used, and WILL KEEP GOOD IN ANY CLIMATE.

In bottles, pints, half-pints, and quarter-pints. A pint bottle is equal to 8 pints of the ORDINARY preparations.

QUINTESSENCE OF JAMAICA GINGER AND CAMOMILE.

Ginger has long been deservedly known as an excellent Domestic Medicine, and, combined with Camomile, it is the most efficient tonic known. It is a valuable remedy for INDIGESTION, FLATULENCY, GOUT, CRAMP IN THE STOMACH AND BOWELS, &c. No FAMILY SHOULD BE WITHOUT IT. In half-pints, quarter-pints, one-eighth pints.

AGREEABLE SEIDLITZ POWDER IN ONE BOTTLE,

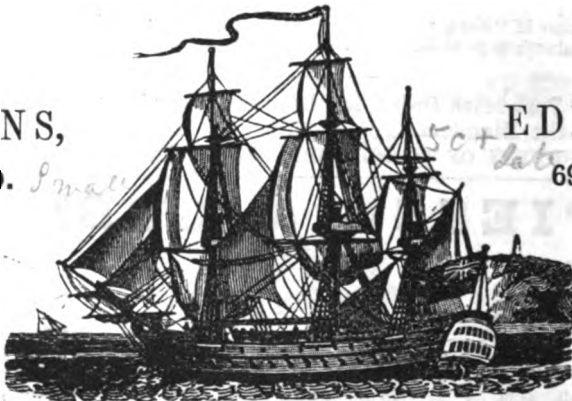

PROTECTED BY A CASE, WITH MEASURE AND SPOON INCLUDED.

The advantages this Preparation possesses over ordinary compounds, is the perfect combination of the solid ingredients of the Seidlitz Spring in one compound powder. It is very agreeable to the palate, and, by a chemical process, more active than those prepared in the usual way (mixing two powders together), and saves much trouble. It is very cooling and refreshing, well adapted for EXPORTATION or TRAVELLERS by SEA or LAND, being unimpaired by age or climate.

WILKINSON, BRIDGE, & CO., CHEMISTS, &c., 270, REGENT STREET, LONDON, W.

COMFORT IN STORMY WEATHER.

EDMISTONS,
69, STRAND.

EDMISTONS,
69, STRAND.

SOLE MANUFACTURERS OF INDIA RUBBER GARMENTS that can be guaranteed free from stickiness in extreme heat, and from stiffness in the coldest regions. The Cloth is now prepared of stout quality, for sea service, by the same patent process as the Pocket Siphonia, which entirely obviates those faults hitherto complained of in India Rubber Garments.

Only those stamped "**EDMISTON, 69, STRAND,**" can be relied on.

Measurement—Length of Coat, and size round the Chest, Price 30s. to 50s.

LIFE BELTS, SOUTH-WESTERS, LEGGINGS, OVERALL TROUSERS, DECK BOOTS, WATER DECKS, FOLDING BATHS, ETC.

PORTABLE FOLDING BOATS, FOR ONE OR MORE PERSONS, SUITABLE FOR EXCURSIONS UP THE COUNTRIES.

LONDON: EDMISTON AND SON, 69, STRAND.
